BUDGET PROCESS

FOUR ESSENTIAL PHASES OF THE BUDGET PROCESS

During the **formulation phase** the economic forecast and the program and financial plans are prepared for the various GovGuam departments. Historical and latest economic data and statistics are utilized in developing projected revenue collections for the upcoming fiscal year. The product of such efforts is the annual *Governor's Executive Budget Request*.

The **audit phase** involves the review and evaluations of departmental expenditure performance in accordance with the General Appropriations Act and department mission statements and performance goals and objectives.

The **adoption phase** is the process in which the Legislature considers the Governor's annual Executive Budget Request for adoption into the overall Government of Guam Revenue and Spending Plan for passage under the General Appropriations Act.

The **execution phase** includes the monitoring and management of departmental appropriations authorized in the annual General Appropriations Act.

FUTURE OUTLOOK

CHALLENGES

The ongoing challenge of the Bureau of Budget and Management Research (BBMR) is its ability to help defray the potential General Fund (GF) deficit at the end of each fiscal year. The primary tool for this endeavor is the fifteen percent (15%) reserve applied to all Executive Branch departments and agencies. The reserves are released on an "as needed basis" with compelling justifications. These releases are normally made during the last quarter of the fiscal year. Another effective tool is the scheduling of allotment releases on a twelve (12) month basis. Should there be an urgent need to cover a deficit or potential deficit in each allotted month, advancement of the allotment months scheduled from July, August or September are advanced to those months reflecting insufficiency, rather than to release the account reserves. Lastly as the third line of defense, document reviews, such as personnel actions, contracts and travel authorizations, are made to ensure such item of purchase are necessary.

In spite of all these precautions, deficits do take place because of unfunded mandates, acts of God, and community emergencies.

Congratulations to our Retiree!
