The Board of Directors
Antonio B. Won Pat International Airport Authority, Guam
P.O. Box 8770
Tamuning, Guam 96931

Dear Sirs:

We have performed an audit of the financial statements of the Antonio B. Won Pat International Airport Authority, Guam (the Authority), a component unit of the Government of Guam, as of and for the year ended September 30, 2015, in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and have issued our report thereon dated March 3, 2016.

REQUIRED COMMUNICATIONS

Professional standards require the auditor to provide the Board of Directors (the Board or those charged with governance) with additional information regarding the scope and results of the audit that may assist the Board (or those charged with governance) in overseeing the financial reporting and disclosure processes which the management of the Authority is responsible. We summarize these required communications as follows:

Auditors' Responsibilities under Auditing Standards Generally Accepted in the United States (US GAAS) and Generally Accepted Government Auditing Standards (GAGAS)

The financial statements are the responsibility of the Authority's management. Our audit was designed in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, to obtain reasonable, rather than absolute, assurance that the financial statements are free of material misstatement. We were not engaged to perform an audit of the Authority's internal control over financial reporting.

Auditors' Responsibilities under US GAAS and GAGAS, continued

Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation.

As part of our audit, we considered the Authority's internal control over financial reporting as a basis for designing audit procedures that were appropriate in the circumstances.

As described in our engagement letter dated July 22, 2015, the objective of a financial statement audit performed in accordance with US GAAS and GAGAS is as follows:

1. To express an opinion on whether the basic financial statements of the Authority are presented fairly, in all material respects, in conformity with U.S. generally accepted accounting principles. To conduct an audit in accordance with the Single Audit Act Amendments of 1996 and the provisions of OMB Circular A-133 and will include tests of accounting records, a determination of major program(s) in accordance with OMB Circular A-133, and other procedures we consider necessary to enable us to express an opinion on compliance for each major program and to render the required reports.
2. To provide a report on internal control over financial reporting related to the financial statements and compliance with laws, regulations and the provisions of contracts or grant agreements and other matters, noncompliance with which could have a material effect on the financial statements, as required by *Government Auditing Standards*. We will not perform sufficient procedures to render an opinion on internal control over financial reporting nor on compliance with provisions of laws, regulations, contracts or grant agreements and other matters, and therefore, we will not express such an opinion.
3. To report on the fairness of the schedule of expenditures of federal awards when considered in relation to the financial statements as a whole. We also will report on internal control related to major programs and provide an opinion on compliance with laws, regulations and the provisions of contracts or grant agreements that could have a direct and material effect on each major program in accordance with the Single Audit Act Amendments of 1996 and OMB Circular A-133.

The Adoption of, or a Change in Significant Accounting Policies

We determined that the Board is informed about the initial selection of, and any changes in significant accounting principles or their application when the accounting principle or its application, including alternative methods of applying the accounting principle, has a material effect on the financial statements.

Effective October 1, 2014, the Authority implemented:

- GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. This Statement provides guidance for accounting for net pension liabilities, including definition of balances to be included in deferred inflows and deferred outflows of resources.
- GASB Statement No. 71, *Pension Transition for Contributions Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*. This statement requires that contributions made by participating employers to pension plans after the Measurement Date for the Net Pension Liability but before the end of the financial statement period for the employer be reported as deferred outflows of resources.

The implementation of GASB No. 68, required the Authority to record \$1,808,443 of deferred inflow of resources for pension, \$3,297,500 of deferred outflow of resources for pension and \$30,256,332 of net pension liability, respectively, with a \$28,767,275 charge to beginning net position as of October 1, 2014.

Auditor’s Judgments about the Quality of the Authority’s Accounting Principles

We discussed our judgments about the quality, not just the acceptability, of the Authority’s accounting principles as applied in its financial reporting, including the consistency of the accounting policies and their application and the clarity and completeness of the financial statements and related disclosures.

Sensitive Accounting Estimates

Certain estimates are particularly sensitive due to their significance to the financial statements and the possibility that future events may differ significantly from management’s expectations.

We determined that the Board is informed about management’s process for formulating particularly sensitive estimates and about the basis to our conclusions regarding the reasonableness of those estimates.

Management’s judgment is called upon in:

- Preparing budgets that are used to administer and monitor the Authority’s operations. These budgets include determining how existing financial resources will be used in the Authority’s operations.

- Determining the valuation of investments.
- Determining the adequacy of the recorded valuation of receivables, including the need for any reserve.
- Determining useful lives in the calculation of depreciation expense.
- Determining assumptions utilized in measuring pension and other employee-related reserves and related costs for financial accounting purposes.

Material Corrected Misstatements

As a result of our audit procedures, material misstatements were brought to the attention of management and were corrected during the current period (see Appendix A – *Summary of Corrected Misstatements*). During our audit, several post-closing journal entries were recorded while we were conducting our fieldwork.

Uncorrected Misstatements Considered by Management to be Immaterial

Certain uncorrected misstatements accumulated by us (i.e. adjustments either identified by us or brought to our attention by management) were identified during the audit and pertaining to the latest period presented, which were determined by the Authority’s management to be immaterial, both individually and in the aggregate, to the financial statements as a whole (see Appendix B – *Summary of Uncorrected Misstatements*).

We have also issued a separate report of you, also dated March 3, 2016, involving the Authority's compliance with requirements applicable to each major program and on internal control over compliance in accordance with OMB Circular A-133. No significant deficiencies or material weaknesses were noted in those reports.

We have communicated to management, in a separate letter also dated March 3, 2016, certain deficiencies and other matters related to the Authority's internal control over financial reporting and to the Authority's internal control over its information technology environment that we identified during the audit.

Although we have included management's written responses to our comments, such responses have not been subjected to the auditing procedures applied in our audit of the basic financial statements and, accordingly, we do not express an opinion or provide any form of assurance on the appropriateness of the responses or the effectiveness of any corrective actions described therein.

Environmental liabilities

We have disclosed to you all significant pollution remediation matters and have made available to you all significant relevant information related to them. The pollution remediation obligations included in the statement of net position represents our best estimate of the potential losses in accordance with GASB Statement No. 49. The disclosures of pollution remediation matters in the financial statements are in accordance with GASB Statement No. 49.

Environmental Response Actions

As discussed in Note 4, in September 2000, the Navy transferred 1,417 acres of property to the Authority and Government of Guam at no cost. In fiscal year 2001, the Navy paid the Authority \$10,000,000 as a lump sum but not in accordance to the payment provisions of the Quitclaim Deed from the Navy. In exchange for the payment, the Authority and the Government of Guam apparently assumed obligations for environmental response actions addressing specific groundwater contamination even if the cost of the response actions exceeds the \$10 million received from the Navy. The Authority’s management has received the final draft of the Decision Document (DD) for Operable Unit 3 (OU3) which is the groundwater located under the former Naval Air Station. The DD presents the selected remedy for OU3 which is the remedial alternative 3. It calls for extraction and treatment at Well NAS-1 and future wells, if necessary, and natural attenuation. The DD identifies the Navy as the lead agency for the cleanup with support agencies that include the Authority, Guam Environmental Protection Agency (GEPA) and the US EPA. The Navy, the Authority and GEPA are the authorized signatories for the DD. After a due diligence review, the DD is expected to be executed during fiscal year 2015.

Environmental liabilities, continued

Environmental Response Actions, continued

The Authority’s responsibilities under the draft DD are limited to sampling and testing as currently performed. The new task is for the Authority to conduct a 5 year review to ensure the remedial action is or will be protective of human health and the environment. This new task may reduce the ongoing sampling and testing requirements or completely eliminate them. Moreover, the granular activated carbon (GAC) treatment provided under the Authority’s new water system satisfies the GAC treatment component of future wells meeting the selected remedy. No further obligation of the Authority is required under the draft DD. A portion of the remaining balance of the \$10 million received from the Navy, although reprogrammed to the Capital Improvement Fund, may remain as a contingent unencumbered sum to pay for future sampling and testing requirements.

Ownership and pledging of assets

There are no properties capitalized under capital leases. The Authority has satisfactory title to all assets appearing in the statement of net position. No security agreements have been executed under the provisions of the Uniform Commercial Code, and there are no liens or encumbrances on assets, nor has any asset been pledged except as disclosed in the financial statements. All assets to which the Authority has satisfactory title appear in the statement of net position.

Receivables and revenues

Receivables represent valid claims against the debtors indicated and do not include amounts for goods shipped or services provided subsequent to the statement of net position dates, goods shipped on consignment, or other types of arrangements not constituting sales. Receivables have been determined in accordance with all relevant GASB Statements, including GASB Statements No. 33 and 62.

Adequate provision has been made for losses, costs and expenses that may be incurred subsequent to the statement of net position date in respect of any sales and services rendered prior to that date and for uncollectible accounts, discounts, returns and allowances, etc., that may be incurred in the collection of receivables at that date.

We have disclosed to you all sales terms (both expressed and implied), including all rights of return or price adjustments and warranty provisions. We have made available to you all significant contracts, communications (either written or oral), and other relevant information pertaining to arrangements with our customers, including distributors and resellers.

Inventories

Physical counts and measurements of inventories were made by competent employees under the supervision of management and book records were appropriately adjusted after giving recognition to cut-off for materials received and products shipped.

Events of default under debt agreements

No events of default have occurred with respect to any of the Authority’s debt agreements.

Related party relationships and transactions

The substance of transactions with related parties as defined in GASB Statement No. 56, has been considered and appropriate adjustments or disclosures are made in the basic financial statements, and information concerning these transactions and amounts have been made available to you.

Contingent liabilities

There are no unasserted claims or assessments, including those our lawyers have advised us of, that are probable of assertion and must be disclosed in accordance with GASB 62 other than those disclosed in the financial statements.

There are no other liabilities or gain or loss contingencies considered material, individually or in the aggregate, that are required to be accrued or disclosed by generally accepted accounting principles other than those accrued or disclosed in the financial statements, nor are there any accruals for loss contingencies included in the statements of net position or gain contingencies reflected in earnings that are not in conformity with the provisions of GASB 62.

There are no oral or written guarantees, including guarantees of the debt of others.

Arrangements with financial institutions

Arrangements with financial institutions involving compensating balances or other arrangements involving restrictions on cash balances and line-of-credit or similar arrangements have been properly recorded or disclosed in the financial statements.

Purchase commitments

At September 30, 2015, the Authority had no purchase commitments for inventories in excess of normal requirements or at prices that were in excess of market at that date.

There were no agreements or commitments to repurchase assets previously sold. There were no material commitments outstanding at the date of the statement of net assets as a result of being a party to futures or forwards contracts, short sales or hedge transactions.

Effects of new accounting principles

As discussed in Note 1 to the financial statements, we have not completed the process of evaluating the effects that will result from adopting the amendments to the following codification provided in Governmental Accounting Standards Board (GASB):

Required supplementary information

We acknowledge our responsibility for the required supplementary information on the management’s discussion and analysis on pages 4 through 7 schedule of proportionate share of net pension liability and related ratios on page 55 and the schedule of defined benefit plan contributions on page 56 related to GASB Statement No. 68, which have been measured and presented in conformity with the guidelines established by the Governmental Accounting Standards Board in its applicable GASB Statement. There have been no changes in the methods of measurement or presentation of the required supplementary information from those used in the prior period. We are responsible for the significant assumptions and interpretations underlying the measurement and presentation of the required supplementary information. We believe that the significant assumptions and interpretations used are reasonable.

We have omitted the Schedule of Funding Progress and Actuarial Accrued Liability – Post Employment Benefits Other Than Pension that U.S. generally accepted accounting principles require to be presented to supplement the basic financial statements. We understand the missing information, although not a part of the basic financial statements is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context.

Supplementary information

We are responsible for the preparation and fair presentation of the following schedules (the “supplementary information”):

- Schedule 3 - Facilities and Systems Usage Charges
- Schedule 4 - Concession Fees
- Schedule 5 - Rental Income
- Schedule 6 - Contractual Services
- Schedule 7 - Personnel Services
- Schedule 8 - Materials and Supplies
- Schedule 9 - Insurance Coverage
- Schedule 10 - Reconciliation of Historical Financial Results
- Schedule 11 - Employee Data

We believe the supplementary information, including its form and content, is fairly stated in all material respects in relation to the basic financial statements as a whole.

There have been no changes in the methods of measurement or presentation of the supplementary information from those used in the prior period.

There are no significant assumptions or interpretations underlying the measurement or presentation of the information.

Fraud

We acknowledge our responsibility for the design, implementation and maintenance of programs and internal control to prevent and detect fraud.

We have no knowledge of any fraud or suspected fraud involving management or other employees who have a significant role in the Authority’s internal control over financial reporting. In addition, we have no knowledge of any fraud or suspected fraud involving other employees where the fraud could have a material effect on the financial statements.

We have disclosed to you the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud. We have disclosed to you all allegations of financial improprieties, including fraud or suspected fraud, coming to our attention (regardless of the source or form and including, without limitation, allegations by “whistle-blowers”) where such allegations could result in a misstatement of the financial statements or otherwise affect the financial reporting of the Authority.

Independence

We are not aware of any capital lease, material cooperative arrangement or other business relationship between the Authority and Ernst & Young LLP or any other member firm of the global Ernst & Young organization.

We are not aware of any reason that Ernst & Young LLP would not be considered to be independent for purposes of the Authority’s audit.

Conflicts of interest

There are no instances where any officer or employee of the Authority has an interest in a company with which the Authority does business that would be considered a “conflict of interest.” Such an interest would be contrary to the Authority’s policy.

Government of Guam General Fund

Pursuant to 5 GCA Chapter 22 § 22421 *Transfer of Autonomous Agency Revenues to Autonomous Agencies Collections Fund*, certain autonomous agencies, to include the Authority, are to remit certain amounts to the Government of Guam General Fund at the end of each fiscal year.

Notwithstanding the requirements of 5 G.C.A. § 22421, the Authority is prohibited by its 2013 General Revenue Bond Indentures (2013 Indentures) and federal law from transferring any funds from its operating surplus to the General Fund

Government of Guam General Fund, continued

During the course of Fiscal Year 2015, there was no substantive progress of discussions with the Executive and Legislative branches to repeal 5 GCA § 22421 or on the issue of the Government of Guam assessment.

The Authority recognizes that it is an instrumentality of the Government of Guam. The Authority may reimburse the Government of Guam for costs of services and contributions provided to the Authority subject to the standards of documentation as required by the FAA’s Policy and Procedures Concerning the Use of Airport Revenue. The Authority may also pay for an indirect cost allocation that is reasonable, transparent, calculated similarly for other governmental units and consistent with Attachment A to OMB Circular A-87 and the aforementioned FAA policy.

Other Representations

- We have identified and disclosed to you, all laws, regulations and provisions of contracts and grant agreements that could have a direct and material effect on financial statement amounts, including legal and contractual provisions for reporting specific activities in separate funds.
