COMES NOW ENGIE SOLAR (“ENGIE”), the winning bidder of GPA-IFB-007-18, Renewable Energy Resource Phase III (the “IFB”) and requests that it be permitted to use an Italian interpreter during the hearing in this matter scheduled for March 25, 2020 at 10:00 a.m.

Guam’s procurement rules and regulations grant a hearing officer the power to hold informal conferences to consider “matters that may aid in the expeditious disposition of the proceeding” and to “[r]egulate the course of the hearing and conduct of participants therein.” 2 GAR § 12109(a) and (e).

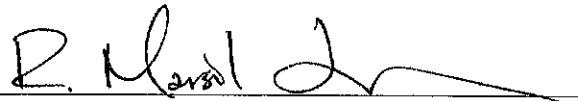

ENGIE plans to call two witnesses who are native Italian speakers. While both are generally capable of speaking English, they are not fluent. An interpreter would ensure that they clearly understand the questions posed to them and that their testimony is properly understood by the Public Auditor and the other parties.

The testimony of these witnesses is necessary for ENGIE's case. They are both engineers. They formulated requests for information sent by ENGIE that are relevant to the issues on appeal and they participated in the formation of ENGIE's unpriced technical proposal.

ENGIE respectfully requests that the Public Auditor, pursuant to the power authorized it under 2 GAR § 12109, permit ENGIE to use an interpreter in presenting testimony by the above-described witnesses during the hearing in this matter.

**DATED:** this 20th day of February, 2020.
