INDEPENDENT AUDITORS' REPORT

Honorable Felix P. Camacho
Governor
Government of Guam:

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Government of Guam (GovGuam) as of and for the year ended September 30, 2005, which collectively comprise GovGuam's basic financial statements as set forth in Section II of the foregoing table of contents. These financial statements are the responsibility of the management of GovGuam. Our responsibility is to express an opinion on the respective financial statements based on our audit. We did not audit the financial statements of the GTA Privatization Proceeds Fund and the Interim Transition Coordinating Committee Fund, which represent 4%, 36% and 1%, respectively, of the assets, net assets and revenues of the governmental activities, the GovGuam Retirement Fund, which represents 88% and 63%, respectively, of the assets and revenues of the aggregate remaining fund information, and the Guam International Airport Authority, the Guam Housing and Urban Renewal Authority, the Guam Housing Corporation, and the Guam Educational Telecommunications Corporation, which represent 30% and 12%, respectively, of the assets and revenues of GovGuam's discretely presented component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the GTA Privatization Proceeds Fund, the Interim Transition Coordinating Committee Fund, the GovGuam Retirement Fund, the Guam International Airport Authority, the Guam Housing and Urban Renewal Authority, the Guam Housing Corporation, and the Guam Educational Telecommunications Corporation, is based solely on the reports of the other auditors.

Except as discussed in the following paragraphs, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the respective financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of GovGuam's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the respective financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinion.

While GovGuam's Department of Revenue and Taxation has provided the required data to reconcile to the records of GovGuam's Department of Administration - Division of Accounts, support for such data was insufficient for us to perform procedures to satisfy ourselves as to the effectiveness of the systems surrounding tax related balances recorded within GovGuam's General Fund and the aggregate remaining fund information of GovGuam, nor could we perform other procedures to enable us to satisfy ourselves with respect to tax related balances in the accompanying financial statements.

The financial statements of the Guam Memorial Hospital Authority have not been audited, and we were not engaged to audit these financial statements as part of our audit of GovGuam's basic financial statements. The financial activities of the Guam Memorial Hospital Authority are included in GovGuam's basic financial statements as discretely presented component units and represent 4% and 12% of the assets and revenues, respectively, of GovGuam's aggregate discretely presented component units.

In our opinion, based on our audit and the reports of other auditors, except for the effects on the respective financial statements of such adjustments, if any, as might have been determined to be necessary had we been able to substantiate tax related balances recorded within the General Fund, the aggregate remaining fund information, and the governmental activities, as discussed in the third paragraph above, and had the financial statements of the Guam Memorial Hospital Authority been audited, as discussed in the fourth paragraph above, such financial statements, as set forth in Section II of the foregoing table of contents, present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Government of Guam as of September 30, 2005, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis, on pages 4 through 12, as well as the Schedule of Revenues, Expenditures, and Changes in Deficit - Budget and Actual - General Fund and notes thereto, as set forth in Section III of the foregoing table of contents, are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. This supplementary information is the responsibility of the management of GovGuam. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit such information and we do not express an opinion on it.

Our audit was conducted for the purpose of forming an opinion on GovGuam's respective financial statements that collectively comprise GovGuam's basic financial statements. The Other Supplementary Information, as set forth in Section IV of the foregoing table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements of GovGuam. This supplementary information is the responsibility of the management of GovGuam. Such additional information has been subjected to the auditing procedures applied by us, and the other auditors, in the audit of the basic financial statements and, except for the effect of the matters described in the third and fourth paragraphs above, in our opinion, based on our audit and the reports of other auditors, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 9, 2006, on our consideration of the Government of Guam's (primary government only) internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

GOVERNMENT OF GUAM

Management's Discussion and Analysis Year Ended September 30, 2005

Our discussion and analysis of the Government of Guam ("GovGuam") financial performance provides an overview of GovGuam's financial activities for the fiscal year ended September 30, 2005. Please read it in conjunction with GovGuam's basic financial statements, which follow this section. Fiscal year 2004 comparative information has been included, where appropriate. The amounts included for fiscal year 2004 for the purpose of comparisons have been restated, as further detailed in the fiscal year 2005 notes to the basic financial statements.

FINANCIAL HIGHLIGHTS

- For the fiscal year ended September 30, 2005, GovGuam's total net assets decreased by \$8.6 million (or 9.8%) from \$88.5 million in the prior year to \$79.9 million. This decrease is primarily attributable to an increase in expenses for governmental activities of \$52.2 million as compared with prior year whereas revenues only increased by \$31.4 million as compared with prior year. This net decrease in total net assets of \$36.9 million was offset by an extraordinary item relating to the gain on sale of the Guam Telephone Authority (\$28.3 million).
- During fiscal year 2005, GovGuam's expenses for governmental activities were \$727.3 million, including expenses recorded or payments made or due to the autonomous agencies, and were funded in part by \$241.8 million in program revenues and \$448.6 million in taxes and other general revenues (excluding extraordinary items of \$28.3 million). Expenses were up from fiscal year 2004 by \$52.2 million (or 7.7%) whereas program revenues were down from fiscal year 2004 by \$12.7 million (or 5.0%). This decrease in program revenues was primarily due to a decrease in operating grants and contributions (\$15.3 million) offset by an increase in charges for services (\$2.6 million).
- For the fiscal year ended September 30, 2005, the General Fund reported general fund appropriations (including transfers out) of \$495.2 million, \$30.4 million in excess of revenues (including transfers in) of \$464.8 million, and were up \$47.4 million (or 10.6%) from fiscal year 2004 primarily because of an increase in public education related expenditures (up \$28.4 million or 19.4%), general government expenditures (up \$5 million or 16.4%), and federal grant local match requirements (up \$5.8 million or 28.9%).
- At September 30, 2005, the General Fund reported a total fund balance deficit of \$344.0 million, which is an increase of \$30.4 million from the prior year deficit of \$313.6 million. This change in the deficit is primarily attributable to an increase in the deficit of the unreserved general fund balance of \$30.9 million (or 8.9%) and reserve for related assets of \$6.5 million (or 78.3%), offset by a decrease in continuing appropriations of \$6.4 million (or 47.3%).

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to GovGuam's basic financial statements. GovGuam's basic financial statements comprise three components: 1) governmental-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains additional required supplementary information in the form of budgetary schedules, which are prepared on the budgetary basis of accounting, and other optional supplementary information, in addition to the basic financial statements themselves, which includes combining statements for governmental funds and component units.

Government-wide Financial Statements

The government-wide statements report information about GovGuam as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report GovGuam's net assets and how they have changed. Net assets - the difference between GovGuam's assets and liabilities - is one way to measure GovGuam's financial health or position.

- Over time, increases or decreases in GovGuam's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of GovGuam you need to consider additional non-financial factors such as changes in GovGuam's tax base, the condition of GovGuam's roads and infrastructure, and the quality of services.

The government-wide financial statements of GovGuam are divided into two categories:

- Primary government - this grouping comprises governmental activities, which includes most of GovGuam's basic services such as education, public safety, health, finance, judiciary, and general administration. Local sourced tax revenues and other federal grants finance most activities of the primary government.
- Discretely presented component units - GovGuam includes numerous other entities in its report. Although legally separate, these "component units" are important because GovGuam is financially accountable for them.

Fund Financial Statements

The fund financial statements provide more detailed information about GovGuam's most significant funds - not GovGuam as a whole. Funds are accounting devices that GovGuam uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by enabling legislation.
- GovGuam establishes other funds to control and manage money for particular purposes (like Solid Waste Operations Fund) or to show that it is properly using certain grants (like federal grants reported in the Federal Grants Fund).

GovGuam has two kinds of funds:

- Governmental funds - Most of GovGuam's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of GovGuam's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance GovGuam's programs.

GOVERNMENT OF GUAM

Management's Discussion and Analysis, Continued

Fund Financial Statements, Continued

- Fiduciary funds - GovGuam is the trustee, or fiduciary, for other assets that because of trust arrangement, can be used only for the trust beneficiaries. GovGuam is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of GovGuam's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of change in fiduciary net assets. We exclude these activities from GovGuam's government-wide financial statements because GovGuam cannot use these assets to finance its operations.

A FINANCIAL ANALYSIS OF GOVGUAM AS A WHOLE

Net assets may serve over time as a useful indicator of a government's financial position. At the end of fiscal year 2005, GovGuam's assets exceeded liabilities by \$79.9 million. However, all these net assets are either restricted as to the purpose they can be used for or are invested in capital assets. GovGuam uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although GovGuam's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the liabilities. The summary of Net Assets (condensed) presented below, with comparable balances for fiscal year 2004, as restated, discloses this relationship:

		GovGuam's Net Assets As of September 30	
		<u>2005</u>	<u>2004</u>
Current and other assets	\$	222,934,856	\$ 253,113,093
Capital assets		<u>716,448,507</u>	<u>732,640,813</u>
Total Assets		<u>939,383,363</u>	<u>985,753,906</u>
Long-term liabilities		421,147,193	423,163,768
Other liabilities		<u>438,397,771</u>	<u>474,098,851</u>

Net assets:			
Invested in capital assets, net of related debt		479,771,922	477,395,169
Restricted net assets		83,926,153	65,614,367
Unrestricted net assets		<u>(483,859,676)</u>	<u>(454,518,249)</u>
Total net assets	\$	<u>79,838,399</u>	<u>\$ 88,491,287</u>

At the end of fiscal year 2005, GovGuam's unrestricted net assets showed a deficit of \$483.9 million, an increase of \$29.3 million (or 6.5%) from the prior year deficit. This deficit is the result of having long-term commitments that are greater than currently available resources. Specifically, GovGuam did not include in past annual budgets the full amounts needed to finance future liabilities arising from outstanding bonds payable and other loans as well as to pay for unfunded pension liabilities, closure and post closure costs of the Ordot Dump, and unused employee leave balances. GovGuam will include these amounts in future years' budgets as they become due.

Changes in Net Assets

For the year ended September 30, 2005, net assets of the primary government decreased by \$8.6 million, a decrease of 9.8% from the prior year's net assets, as restated, of \$88.5 million. This result indicates that GovGuam's financial condition, as a whole, decreased from the prior year. For the year ended September 30, 2005, net assets of the primary government changed as follows, with comparable amounts for fiscal year 2004:

FINANCIAL ANALYSIS OF GOVGUAM'S FUNDS

As noted earlier, GovGuam uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. As of the end of fiscal year 2005, GovGuam's governmental funds reported a combined fund balance deficit of \$204.1 million, which represents an increase of \$5.4 million (or 2.7%) in comparison with the fiscal year 2004 combined fund balance deficit of \$198.7. This decrease is primarily attributable to the increase in fund balance deficit of the general fund of \$30.4 million, the decrease in fund balance of the capital projects funds and debt service funds of \$3.1 million and \$10.0 million, respectively, offset by an increase in fund balance of the special revenue funds (up \$49.9 million). Of this total combined fund balance deficit, \$159.4 million is reserved to indicate that it is not available for new spending because it has already been committed: 1) to liquidate contracts and purchase orders of the prior period (\$54.7 million); 2) to fund debt service-related activities (\$37.2 million); 3) to liquidate continuing appropriation commitments (\$24.0 million); or 4) for a variety of other restricted purposes. The combined unreserved fund deficit of GovGuam's governmental funds is \$363.5 million, an increase of \$11.7 million (or 3.5%) from fiscal year 2004. This deficit will be funded through future budgetary surpluses.

General Fund Budgetary Highlights

During the course of the fiscal year, management and elected officials of GovGuam revised the General Fund budget. The revised budget included an increase in overall general fund appropriations of \$0.9 million. The primary reason for the upward revision in general fund appropriations was due to the roll-over of encumbrances from fiscal year 2004.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

GovGuam's investment in capital assets for its governmental activities as of September 30, 2005 amounted to \$924.2 million, with (net of) accumulated depreciation of \$207.7 million, leaving a net book value of \$716.5 million. GovGuam's capital assets include land, infrastructure, buildings, machinery and equipment, and various projects under construction. (See table below). This represents a decrease of \$16.2 million (or 2.2%) from fiscal year 2004.

Capital Assets, Continued

Major capital asset additions for fiscal year 2005 were as follows:

- \$2.2 million road improvements to the Tumon Bay restoration project.
- \$3.2 million for the purchase of school buses and \$0.9 million for computer equipment.
- \$1.5 million for road construction for Route 4, Yona to Ylig Bridge.

Additional information on GovGuam's capital assets can be found in note 1L to the basic financial statements.

Long-term Debt

The Organic Act authorizes GovGuam to borrow for such purposes as approved by the Legislature. GovGuam has entered into seven separate long-term debt obligations, as indicated below. No new long-term debt obligations were incurred by GovGuam during the year ended September 30, 2005 with overall long-term debt obligations decreasing by \$40.3 million (or 12.3%) in fiscal year 2005.

ECONOMIC FACTORS AND NEXT YEAR BUDGETS AND RATES

Guam benefits from being the westernmost territory of the United States, in close proximity to Asian nations bordering the Pacific Ocean. Guam is a strategic military location and is home to many domestic and international corporations that serve our tourists and military markets. Since 2002, Guam has suffered from the effects of the Gulf/Iraq war, Asian SARS epidemic, typhoon Chata'an in July 2002, and super-typhoon Pongsona in December 2002. The consequences of these events resulted in the loss of private sector jobs, fewer tourist arrivals and increased expenditures in reconstruction efforts. Although Guam has not experienced significant natural disasters since 2002, uncertainties about homeland security and international terrorism, fears surrounding the Asian SARS epidemic and rising fuel costs have dampened our economy from a robust recovery.

Employees on payroll across all industries totaled 57,710 for the third quarter of 2005, an increase of 400 employees compared with the same period in 2004. Although the private sector saw a net increase of 490 paid employees, their average weekly earnings decreased by \$11.39 compared with the same period in 2004. The unemployment rate for Guam is currently 7.7% as of March 2004, a decrease of 32.5% when compared to 11.4% for the same period in 2002 (2005 and 2003 N/A). The total number of payroll employment for the first quarter of 2004 was 57,810 employees, an increase of 3.6% (2,030 workers) when compared with the same period in 2003.

Guam's Consumer Price Index (CPI) increased by 5.8% for the third quarter of 2005 when compared to the same period in 2004, with CPI reported at 120.74 for the third quarter of 2005. The purchasing power of the dollar in the third quarter of 2005 was \$0.83 [Third quarter of 1996 = \$100].

Visitor arrivals totaled 324,904 for the third quarter of 2005, a 2.6% increase (8,235 visitors) from the third quarter of 2004, and a 24.4% increase (62,046 visitors) when 2004 is compared to the third quarter of 2003. Hotel occupancy taxes have increased by 5.7% or \$281,209 from the third quarter of 2004 to the third quarter of 2005, and have dramatically increased by 47.4% or \$1.58 million from the third quarter of 2003 to the third quarter of 2004.

The number and aggregate value of building and construction permits issued on Guam for the third quarter of 2005 were 310 permits valued at \$40,525,000, an increase of 8.8% in terms of the number of permits and an increase of 30.3% in terms of the aggregate value for the same period in 2004. On average, the value of permits has increased by 110.3% over this time period.

On September 30, 2005, the Governor signed the budget bill into law through Public Law 28-68 authorizing government operations for fiscal year 2006. The authorized budget included General fund revenues and expenditures of \$435.1 million, which included funding priorities in education, public safety and healthcare.

GOVERNMENT OF GUAM

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and
Changes in Fund Balances (Deficits) to the Statement of Activities
September 30, 2005

Total net change in fund balances (deficits) - governmental funds	\$	(5,465,988)
---	----	-------------

Amounts reported for governmental activities in the statement of activities are different because:

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds		962,829
---	--	---------

Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. For the current year these amounts consist of:

Capital outlay	\$ 12,531,901		
Depreciation expense	<u>(29,554,724)</u>		(17,022,823)

Repayment of long-term debt is reported as an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. For the current year these amounts consist of:

Long-term debt retirement		40,460,181
---------------------------	--	------------

In the statement of activities, only the gain on sale of the Guam Telephone Authority is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from the change in fund balance by the cost of the assets sold.		830,517
---	--	---------

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. For the current year these activities consist of:

Accrued interest	887,001		
Compensated absences	920,298		
Unfunded pension costs	(29,265,361)		
DCRS sick leave liability	(1,096,722)		
Amortization of bond premiums and issuance costs	<u>137,180</u>		<u>(28,417,604)</u>

Change in net assets of governmental activities	\$	<u><u>(8,652,888)</u></u>

(1) Summary of Significant Accounting Policies

A. Reporting Entity

The accompanying basic financial statements of GovGuam (GovGuam) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the recognized standard-setting body for establishing governmental accounting and financial reporting principles.

Guam is an unincorporated territory of the United States of America with policy relations between Guam and the United States under the jurisdiction of the Office of Territorial and International Affairs, U.S. Department of the Interior. In 1950, the U.S. Congress provided Guam with an Organic Act that organized GovGuam as a constitutional government comprised of locally elected executive and legislative branches and an appointed judicial branch. In addition, Guam has an elected representative to the U.S. Congress who possesses the same powers and privileges as Representatives from the various States, with the exception of voting on the House floor. The Executive Branch consists of a popularly elected Governor and Lieutenant Governor, each serving a four-year term, with executive department heads appointed by the Governor with the consent of the Guam legislature. The Legislative Branch is a unicameral parliament consisting of 15 members elected for a term of two years. The Judicial Branch is comprised of a Territorial Superior Court with judges appointed for eight-year terms by the Governor. Under the Organic Act, GovGuam is required to submit to the U.S. Congress and the Secretary of the Interior a comprehensive annual financial report in conformance with the standards of the National Council on Governmental Accounting within 120 days after the close of the fiscal year; however, GovGuam has not complied with this requirement.

For financial reporting purposes, GovGuam has included all funds, organizations, agencies, boards, commissions and institutions, including the Guam Public School System, which is a line agency of GovGuam within GovGuam's Department of Education and is included within the General Fund. GovGuam has also considered all potential component units for which it is financially accountable as well as other entities for which the nature and significance of their relationship with GovGuam are such that exclusion would cause GovGuam's basic financial statements to be misleading or incomplete. Blended component units are entities that are legally separate from GovGuam, but are so related to GovGuam that they are, in substance, the same as GovGuam or entities providing services entirely or almost entirely to GovGuam. The net assets and results of operations of the following legally separate entities are presented as part of GovGuam's operations:

1. Blended Component Units

The following component units are blended within the Primary Government:

- (a) GovGuam Retirement Fund, a Fiduciary Fund Type - Pension Trust Fund. The Fund was enacted to provide retirement amenities and other benefits to GovGuam employees, who upon entry to service are eligible for membership. The Fund is governed by a seven member Board of Trustees. Two members are elected by active Fund members; two members are elected by Fund members among the roster of retirees; and three members are appointed by the Governor of Guam.

2. Discretely Presented Component Units

Discretely presented component units are entities which are legally separate from GovGuam, but are financially accountable to GovGuam, or whose relationships with GovGuam are such that exclusion would cause GovGuam's basic financial statements to be misleading or incomplete. The component units' column of the basic financial statements includes the financial data of the following entities:

Major Component Units:

- (a) Guam International Airport Authority (GIAA) was created by Public Law 13-57 (as amended) as an autonomous instrumentality of GovGuam to own and operate the facilities of the Guam International Air Terminal. It is charged with the acquisition, construction, operation and maintenance of airports and related facilities for civil aviation on Guam. GIAA supports its operations through landing fees and charges for use of its facilities and through rentals under concessionaire agreements and is governed by a seven member Board of Directors, all of whom are appointed by the Governor of Guam.
- (b) Guam Memorial Hospital Authority (GMHA) was created by Public Law 14-29 as an autonomous instrumentality of GovGuam to administer and operate the Guam Memorial Hospital. GMHA is governed by a seven member Board of Trustees, all of whom are appointed by the Governor of Guam.
- (c) Guam Power Authority (GPA) was created by the GPA Act of 1968 and is responsible for the supervision of construction, maintenance of operations and regulations of all electrical utility services within GovGuam. It operates the power system for GovGuam and has created an Island-wide Power System Agreement with the United States Navy. GPA derives revenues from sales of electricity and is governed by the five member Consolidated Commission on Utilities (CCU), all of whom are elected for two or four year terms.
- (d) Guam Waterworks Authority (GWA), formerly the Public Utility Agency of Guam (PUAG), was created by Public Law 23-119 and is responsible for supervising the construction, maintenance operations and regulations of all water and sewerage services within GovGuam. GWA derives its operating revenues from water and wastewater fees to residential, commercial and government customers, based on consumption, and is governed by the CCU.
- (e) Port Authority of Guam (PAG) was created by Public Law 13-87 as an autonomous instrumentality of GovGuam to own and operate the facilities of the Commercial Port of Guam. PAG is governed by a five member Board of Directors, all of whom are appointed by the Governor of Guam.

- (f) The University of Guam (UOG) was created by Public Law 13-194 and is responsible for operating Guam's institution of higher education. UOG is governed by a nine member Board of Regents, all of whom are appointed by the Governor of Guam.

Nonmajor Component Units:

Nonmajor component units are the Chamorro Land Trust Commission, the Guam Community College, the Guam Housing and Urban Renewal Authority, the Guam Housing Corporation, the Guam Economic Development and Commerce Authority, the Guam Visitors Bureau, and the Guam Educational Telecommunications Corporation (KGTF-TV).

GovGuam's component units, departments, and funds that are separately audited issue their own basic financial statements, each of which has a September 30 year-end. Inclusion of these component units is in accordance with GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, an amendment of GASB Statement No. 14. GASB Statement No. 39 provides additional guidance for determining whether certain organizations should be reported as component units based on the nature and significance of their relationship with the primary government and to clarify reporting requirements for those organizations. These entity's resources can only be used by or are for the benefit of UOG and GCC to which they serve. They are presented within the respective financial statements of UOG and GCC because of the nature and significance of them to these entities. Complete financial statements of the foundations may be obtained at their respective offices. The foundations are not considered major component units of GovGuam under the definitions put forth under GASB Statement 34, but are blended within UOG and GCC.

3. Omitted Governmental Funds

The following funds are considered to be nonmajor governmental funds of GovGuam but are not included in the accompanying basic financial statements due to absence of account balances and financial activities. Accordingly, the omission of these funds is not considered material to either the nonmajor governmental funds or the governmental activities reporting units:

Aquaculture Development and Training Fund
Chamorro Education Assistance Fund
Chamorro Home Loan Fund
Chamorro Home Repair Fund
Chamorro Home Development Fund
Chamorro Loan Guarantee Fund
Coastal Zone Management Fund
Community Development Fund
District Improvement Fund

Veteran's Bonus Fund
Vocational Rehabilitation Revolving Fund

B. Government-Wide and Fund Financial Statements

The Statement of Net Assets and the Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been eliminated from these statements except for other charges between the primary government and the discretely presented component units. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

B. Government-Wide and Fund Financial Statements, Continued

Primary government activities are defined as either governmental or business-type activities. Governmental activities, which normally are supported by taxes, intergovernmental revenues and other non-exchange revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties for goods or services. As such, business-type activities account for operations similarly to a for-profit business. GovGuam did not report any business-type activities during the year ended September 30, 2005. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. Discretely presented component unit activities are presented with their business-type focus.

The Statement of Net Assets presents all of the reporting entity's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

- Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt that are attributed to the acquisition, construction or improvement of those assets.
- Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law.
- Unrestricted net assets consist of net assets, which do not meet the definition of the two preceding categories. Unrestricted net assets often are designated (for example, internally restricted), to indicate that management does not consider them to be available for general operations.

The government-wide Statement of Net Assets reports \$83,926,153 of restricted net assets, of which \$49,620,181 is restricted by enabling legislation.

The Statement of Activities demonstrates the degrees to which the direct expenses of given functions or segments are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are, instead, reported as general revenue.

C. Fund Financial Statements

The fund financial statements present a balance sheet and a statement of revenues, expenditures, and changes in fund balances for its major and aggregated non-major funds. Separate financial statements are provided for governmental funds and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements pursuant to GASB reporting standards, with nonmajor governmental funds being combined into a single column.

GOVERNMENT OF GUAM

Notes to Financial Statements

(1) Summary of Significant Accounting Policies, Continued

C. Fund Financial Statements, Continued

GovGuam reports its financial position and results of operations in funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. Transactions between funds within a fund type, if any, have not been eliminated.

D. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements account for the general governmental activities of GovGuam and are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become susceptible to accrual; generally when they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, GovGuam considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Significant revenues susceptible to accrual include income and gross revenue taxes, federal grants, federal reimbursements and other reimbursements for use of materials and services. Miscellaneous revenues from other financing sources are recognized when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures generally are recorded in the period in which the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes are levied as of January 1 on property values assessed as of the same date. The tax levy is divided into two billings: the first billing is due February 20; the second billing is due April 20. The billings are considered past due 60 days after the respective tax payment dates, at which time the applicable property is subject to lien, and penalties and interest are assessed.

Amounts reported as program revenue include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. General revenue is derived from taxation, investment income and other fees that are not allocated to specific programs.

Fiduciary funds and discretely presented component units are reported using the economic resources measurement focus and the accrual basis of accounting, similar to the government-wide financial statements described above.

D. Measurement Focus and Basis of Accounting, Continued

Discretely presented component units distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a component unit's principal ongoing operations. All other revenues are reported as nonoperating. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

GovGuam reports the following fund types:

1. Governmental Fund Types

i. General Fund

This fund is the primary operating fund of GovGuam. It is used to account for all governmental transactions, except those required to be accounted for in another fund.

ii. Special Revenue Funds

These funds account for specific revenue sources that have been aggregated according to enabling legislation to support specific governmental activities.

iii. Capital Projects Funds

These funds account for the acquisition or construction of major GovGuam capital facilities financed primarily from loans and federal reimbursements.

iv. Debt Service Funds

These funds account for the accumulation of resources, principally transfers from other funds, for the payment of long-term debt principal and interest.

2. Fiduciary Fund Types

i. Pension Trust Funds

These funds report resources that are required to be held in trust for the members and beneficiaries of GovGuam's pension plans.

ii. Private Purpose Funds

These funds are used to account for resources held in trust under which principal and income benefit certain individuals.

iii. Agency Fund

This fund is used to report resources held by the primary government in a purely custodial capacity.

D. Measurement Focus and Basis of Accounting, Continued

GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - For State and Local Governments*, as amended by GASB Statement No. 37, *Basic Financial Statements - and Management's Discussion and Analysis - Omnibus*, sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses for either fund category or the governmental and enterprise combined) for the determination of major funds. GovGuam elected to add certain other major funds that had specific public interest. Major individual governmental funds are reported as separate columns in the fund financial statements. The nonmajor funds are combined in a column in the fund financial statements and detailed in the combining statements. GovGuam reports the following major funds:

Federal Grants Assistance Fund, a Governmental Fund Type - Special Revenue Fund. This fund accounts for all activities of U.S. special federal assistance grants and contracts utilized by GovGuam to finance general governmental operations.

Solid Waste Operations Fund, a Governmental Fund Type - Special Revenue Fund. This fund was created by Public Law 24-272 to provide a financing source for GovGuam's costs and expenses directly related to the closure and post-closure of the solid waste landfill.

GTA Privatization Proceeds Fund, a Governmental Fund Type - Special Revenue Fund. This fund was created by Public Law 26-70 to account for the proceeds realized from the sale of the Guam Telephone Authority.

Interim Transition Coordinating Committee Fund, a Governmental Fund Type - Special Revenue Fund. This fund was created by Public Law 27-109 to administer and account for the Privatization Agreement relating to the sale of the Guam Telephone Authority (GTA), and any assets and liabilities of GTA retained by GovGuam after closing of the privatization transaction.

E. Reporting Standards

As allowed by GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting*, GovGuam's discretely presented component units follow all GASB pronouncements and those Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins that were issued on or before November 30, 1989, except those that conflict with a GASB pronouncement.

F. Budgetary Process

Legislation requires the Governor to present a proposed budget to the Legislature at the beginning of each annual session. The Legislature enacts the budget through passage of specific departmental appropriations. Before signing the Appropriations Act, the Governor may veto or reduce any specific appropriation, subject to legislative override. Once passed and signed, the budget becomes the Territorial financial plan for the ensuing fiscal year. Supplemental appropriations for specific purposes are made throughout the year.

GOVERNMENT OF GUAM

Notes to Financial Statements

(1) Summary of Significant Accounting Policies, Continued

F. Budgetary Process, Continued

For budgetary purposes, encumbrance accounting is used. The encumbrances (that is, purchase orders, contracts) are considered expenditures when a commitment is made. For GAAP reporting purposes, encumbrances outstanding at year-end are reported as reservations of budgetary appropriations and GAAP fund balances and do not constitute expenditures or liabilities on a GAAP basis because the commitments will be honored during the subsequent year. Budgetary control is maintained within the departmental level. Budget revisions during the year, reflecting program changes or intradepartmental transfers of an administrative nature, may be effective with certain executive and legislative branch approval. Unencumbered appropriations normally lapse at the end of each fiscal year unless they are designated by the Legislature as representing continuing appropriations.

G. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments in U.S. Treasury obligations with a maturity date within three months of the date acquired by GovGuam. Deposits maintained in time certificates of deposit with original maturity dates greater than three months are separately classified on the statement of net assets/balance sheet.

H. Investments

Investments and related investment earnings are recorded at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

I. Inventories

Inventories of the primary government and the discretely presented component units are generally valued at the lower of cost (FIFO) or market.

J. Receivables

In general, tax revenue is recognized on the government-wide financial statements when assessed or levied and on the governmental financial statements to the extent that it is both measurable and available. Receivables are stated net of estimated allowances for uncollectible accounts. Reimbursements due to GovGuam for expenditures on federally funded reimbursement and grant programs are reported as "receivables from federal agencies."

Receivables of the primary government and the discretely presented component units are primarily due from businesses and individuals residing on the island of Guam. The allowance for uncollectibles primarily represents estimated allowances for uncollectible amounts that are determined based upon past collection experience and aging of the accounts.

The note receivable recorded by the GTA Privatization Proceeds Fund represents a promissory note relating to the privatization of the Guam Telephone Authority that matures on January 1, 2013, bearing interest at the Wall Street Journal's prime rate as of closing date (5.25% at December 31, 2004).

Receivables recorded by the fiduciary funds are as follows:

GovGuam Retirement Fund (GGRF):

At September 30, 2005, GGRF had employer and member contributions receivables from various GovGuam agencies. These receivables represent contributions not remitted to GGRF for various pay periods during the fiscal years ended September 30, 1988 through 2005. As of September 30, 2005, employer contributions receivable totaled \$17,729,621; member contributions receivable totaled \$6,405,229; and interest and penalties receivable totaled \$5,814,607.

Interest and penalties continue to accrue on these receivables based on the provisions set forth in Section 8137(c) of 4 GCA 8, *Retirement of Public Employees*, which states that GGRF will impose interest at a rate equivalent to the average rate of return on its investments from the previous fiscal year and a 1% penalty for delinquent payments.

A significant portion of the employer and member contributions receivables represent contributions from the Guam Public School System (GPSS), a line agency of the primary government, and the Guam Memorial Hospital Authority (GMHA). As of September 30, 2005, receivables from GPSS, including interest and penalties, totaled \$16,741,014. As of September 30, 2005, receivables from GMHA, including interest and penalties, totaled approximately \$9.3 million.

GOVERNMENT OF GUAM

(1) Summary of Significant Accounting Policies, Continued

J. Receivables, Continued

GovGuam Retirement Fund (GGRF), Continued:

Public Law 28-38, passed in June 2005, requires GovGuam's General Fund to remit interest only payments monthly to GGRF for the aforementioned receivables from GPSS and GMHA. The law indicates that monthly payments, totaling \$192,955 and \$190,501, for GPSS and GMHA, respectively, will continue until the outstanding balances for these agencies are fully paid from a general obligation bond or other means. However, if the obligations are not paid within five years, payments for GPSS and GMHA will resume per 4GCA Section 8137. During the fiscal year ended September 30, 2005, GGRF received payments totaling \$578,865 and \$571,504 for GPSS and GMHA, respectively.

In March 1998, GGRF accepted a promissory note from GMHA in the amount of \$9,385,720 for the outstanding balance of contributions owed with related penalties and interest to GGRF. The note bears interest at the bank's prime rate plus 1%, with a floor amount of 8%. At September 30, 2005, the balance on the note was \$5,503,118. Management of GGRF has fully provided for this note in the allowance for uncollectibles. As payments are made against this note, GGRF decreases the allowance for uncollectibles with a corresponding offset included in bad debt recoveries.

Public Law 24-327, as amended, became effective December 30, 1998 relative to GovGuam's Early Retirement Incentive Program (ERIP). This law allowed GGRF members with at least twenty years of creditable service to retire and to purchase up to five years of creditable service. Those electing to participate in the ERIP must pay the members' share of the required contribution, plus interest, based on their salary at the time they made the election; the time period in which the member was required to make the election being December 30, 1998 to January 7, 2000. Payments can be made in full or can be financed through deductions from annuities over a period not to exceed fifteen years.

Approximately 800 members elected to participate in the ERIP and signed promissory notes totaling nearly \$15 million. At September 30, 2005, the amount owed under these notes was \$10,185,803. There is a corresponding deferred revenue account to offset these notes receivable, since contribution income is recognized on a cash basis as amounts are collected from retirees. GovGuam's share of these contributions has been recognized in the amount of \$9,094,642 at September 30, 2005. This receivable has also been offset by deferred revenue in the same amount.

Public Law 25-72, passed in September 1999, required the payment of supplemental annuities and cost of living allowances to retirees, and specified that these payments were an obligation of the General Fund and not of GGRF. The cost of these benefits is to be paid through increased contributions over a period of twenty years. As the payment of these benefits is contingent upon an annual appropriation, no liability has been recognized in the General Fund of GovGuam for the \$92,162,185 of estimated accumulated benefits at September 30, 2005.

K. Interfund Receivables/Payables

During the course of its operations, GovGuam records transactions between individual funds for goods provided or services rendered. Receivables and payables resulting from transactions between funds are classified as "due from other funds" or "due to other funds" on the governmental fund balance sheet. Receivables and payables resulting from transactions between component units and the primary government are classified as "due to/from primary government" or "due to/from component units" on the governmental fund balance sheet and the statement of net assets. Interfund receivables and payables have been eliminated from the Statement of Net Assets.

Receivables and payables between funds reflected as due to/from other funds in the combined balance sheet at September 30, 2005, are summarized as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General	Federal Grants	\$ 5,796,647
General	Solid Waste Operations	1,250,805
General	GTA Privatization Proceeds	174

Nonmajor governmental funds	General	67,694,530
General	Nonmajor governmental funds	<u>22,418,229</u>
		<u>\$ 99,820,694</u>

These balances result from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system, and 3) payments between funds are made, and are scheduled to be collected in the subsequent year.

Interfund receivables not expected to be repaid within the next twelve months are summarized as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General	Nonmajor governmental funds:	
	Tourist Attraction	\$ 3,875,782
	Water Systems Revenue Bond	10,097,130

Guam Power Authority has entered into payment agreements with the primary government to be paid over five to nine years. Details of these payment agreements are as follows:

Receivable from the Guam Public School System, a line agency of the primary government, due in 109 monthly installments, inclusive of interest at 4.47% per annum (\$500,000 per month for the first three months, then \$100,000 per month escalating at intervals to \$200,000 per month), beginning July 20, 2004, with the final installment payment due in July 2013, uncollateralized.	\$ 13,964,139

L. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure (e.g. roads, bridges, ramps and other similar items), are reported in the governmental activity column of the government-wide financial statements. Such assets, whether purchased or constructed, are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. Capital assets are capitalized when the cost of the individual items exceeds \$50,000. The costs of normal maintenance and repairs that do not add to the value of asset or materially extend assets lives are not capitalized.

Capital assets of the primary government are depreciated using the straight-line method with a full year's depreciation charged in the year of acquisition and disposal, regardless of date.

Capital asset activities of the primary government for the year ended September 30, 2005, are as follows.

M. Deferred Revenues

In the government-wide financial statements, deferred revenue is recognized when cash, receivables or other assets are recorded prior to being earned. In the governmental fund financial statements, deferred revenue represents monies received or revenues accrued which have not been earned or do not meet the "available" criterion for revenue recognition under the modified accrual basis of accounting. The deferred revenue in the governmental fund types has primarily resulted from federal funds received in advance of eligible expenditures.

N. Provision for Tax Refunds

During the calendar year, GovGuam collects individual and corporate income taxes through withholdings and payments from taxpayers. At September 30, GovGuam estimates the amount owed to taxpayers for overpayments. These estimated amounts and the actual tax refunds claimed for prior years but not paid at year-end are recorded as tax refunds payable and as a reduction of tax revenue.

As of September 30, 2005, GovGuam recorded a provision for unpaid tax refunds in the amount of \$217,109,628, which included \$28,641,363 relating to interest payable to taxpayers for unpaid prior year tax refunds.

O. Long-term Debt

The liabilities reported in the government-wide financial statements include GovGuam general obligation bonds and long-term notes, and long-term liabilities including vacation, sick leave, long-term liabilities to other governmental entities, net pension obligation, and closure and post-closure costs associated with the Ordot Dump. Long-term obligations financed by component units are recorded as liabilities in the discretely presented component unit's column.

P. Accounting for Pension Costs

For the purpose of applying the requirements of GASB Statement No. 27, *Accounting for Pensions by State and Local Government Employers*, the amount reported as the unfunded pension liability of \$99,944,914 represents the cumulative amount owed by GovGuam for the unfunded prior years' actuarially required pension contributions to the GovGuam Retirement Fund. The unfunded pension liability has been recorded as a liability in the governmental activity in the accompanying government-wide statement of net assets.

For the purpose of the basic financial statements, GovGuam's annual pension cost, measured on the accrual basis of accounting, for the year ended September 30, 2005 amounted to \$76,075,384. However, the amount recognized as pension expenditure in the governmental funds was recorded under the modified accrual basis, and amounted to \$46,810,023.

Q. Bond Premiums and Issuance Costs

In the government-wide financial statements, bond premiums and issuance costs are deferred and amortized over the term of the bonds using the straight-line method. Bonds payable are reported net of bond premiums. Bond issue costs are reported as deferred charges.

In the fund financial statements, governmental fund types recognize bond premiums and issuance costs in the period the bond proceeds are received. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as expenditures.

R. Interfund/Intrafund Transactions

As a general rule, the effect of interfund activity has been eliminated in the government-wide financial statements. Exceptions to this rule are: 1) activities between funds reported as governmental activities and funds reported as business-type activities and 2) activities between funds that are reported in different functional categories in either the governmental or business-type activities column. Elimination of these activities would distort the direct costs and program revenues for the functions concerned.

Operating transfers in/out for each major governmental fund and nonmajor governmental funds in the aggregate, for the year ended September 30, 2005, are as follows:

Nonmajor governmental funds	Fiduciary funds	-	1,123,529
		<u>\$ 165,490,340</u>	<u>\$ 165,490,340</u>

Transfers are used to 1) move revenues from the fund that enabling legislation or budget requires to collect them to the fund that enabling legislation or budget requires to expend them, 2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, and 3) record reductions in interfund loans for amounts that are not expected to be repaid.

During the year ended September 30, 2005, GovGuam made a one-time transfer of \$3,556,552 from the GTA Privatization Proceeds Fund to the Interim Transition Coordinating Committee Fund. This transfer represented residual funds after the repayment of long-term debt owed by the Guam Telephone Authority subsequent to its privatization and sale to TeleGuam.

Furthermore, GovGuam made one-time transfers in the amount of \$1,273,787 from the General Fund to nonmajor governmental funds to eliminate certain operating fund deficits.

S. Fund Equity/Net Assets

GovGuam reports net assets as restricted where legally segregated for a specific future use. Otherwise, these balances are considered unrestricted.

Net Assets have been restricted as follows:

“Restricted for capital projects” - identifies amounts reserved for capital projects.

“Restricted for retirement of indebtedness” - identifies amounts reserved for debt service.

“Restricted for other purposes” - identifies amounts held for various externally imposed restrictions either by creditors, grantors or laws and regulations of other governments. It also includes various restrictions put forth by the GovGuam enabling statutes. Included in this restriction are reserves for prior appropriations continued.

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

T. Capital Projects Funds

The use of the Capital Projects Funds was initiated as of September 30, 1983, and is utilized for funding derived primarily from appropriations from the U.S. Government and through issuance of bonds. Capital expenditures related to projects funded with local revenues are reported in the fund where appropriated.

U. Compensated Absences

Public Law 27-005 was enacted in February 2003 amending the accumulation of annual leave. The statute amended the vacation rates employees are credited to 104 and 156 hours per year, depending upon their length of service.

1. One-half day (4 hours) for each full bi-weekly pay period in the case of employees with less than five (5) years of service
2. Three-fourths day (6) hours for each full bi-weekly pay period in the case of employees with more than five (5) years of service.

The statute further amended the maximum accumulation of such vacation credits from 480 to 320 hours. Employees who have accumulated hours in excess of the 320 hours shall have up to September 30, 2005, to use the excess amount of leave or that portion permitted to be credited to sick leave and the remainder of excess leave will be lost. It is not known at this time the impact this will have on the basic financial statements.

Vacation pay is convertible to pay upon termination of employment. Compensated absences are recorded as a long-term liability in the statement of net assets. Amounts to be paid during the next fiscal year are reported as current. For the governmental fund financial statements, vested or accumulated vacation and sick leave expected to be liquidated with expendable available financial resources are reported as expenditures and fund liabilities.

Public Law 26-86 allows members of the Defined Contribution Retirement System to receive a lump sum payment of one-half of their accumulated sick leave upon retirement. GovGuam has accrued an estimated liability of \$9,215,843 at September 30, 2005 for potential future sick leave payments as a result of this law. However, this amount is an estimate and actual payout may be materially different than estimated.

V. Fund Deficits

Specific individual funds that had individual deficit fund balances as at September 30, 2005, are as follows:

W. New Accounting Standards

During fiscal year 2005, GovGuam implemented GASB Statement No. 40, *Deposit and Investment Risk Disclosures (an amendment of GASB Statement No. 3)*, and GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*. GASB Statement No. 40 addresses common deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk, and foreign currency risk. As an element of interest risk, GASB Statement No. 40 requires certain disclosures of investments that have fair values that are highly sensitive to changes in interest rates. GASB Statement No. 42 establishes standards for impairment of capital assets when its service utility has declined significantly and unexpectedly.

In April 2004, GASB issued Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. GASB Statement No. 43 establishes uniform financial reporting for other postemployment benefit plans by state and local governments. The provisions of this Statement are effective for periods beginning after December 15, 2007. Management does not believe that the implementation of this Statement will have a material effect on the financial statements of GovGuam.

In May 2004, GASB issued Statement No. 44, *Economic Condition Reporting: The Statistical Section, an amendment to NCGA Statement 1*. GASB Statement No. 44 improves the understandability and usefulness of statistical section information and adds information from the new financial reporting model for state and local governments required by GASB Statement No. 34. The provisions of this Statement are effective for periods beginning after June 15, 2005. Management does not believe that the implementation of this Statement will have a material effect on the financial statements of GovGuam.

In July 2004, GASB issued Statement No. 45, *Accounting and Financial Reporting by Employers for Post employment Benefits Other Than Pensions*. GASB Statement No. 45 establishes standards for the measurement, recognition, and display of other post employment benefits expense/expenditures and related liabilities, note disclosures, and, if applicable, required supplementary information in the financial reports of state and local governmental employers. The provisions of this Statement are effective for periods beginning after December 15, 2008. Management does not believe that the implementation of this Statement will have a material effect on the financial statements of GovGuam.

In December 2004, GASB issued Technical Bulletin No. 2004-2, *Recognition of Pension and Other Postemployment Benefit Expenditures/Expense and Liabilities by Cost-Sharing Employers*. GASB Technical Bulletin No. 2004-2 clarifies the requirements of GASB Statement Nos. 27 and 45 for recognition of pension and other postemployment benefit expenditures/expense and liabilities by cost-sharing employers. Management does not believe the implementation of this pronouncement will have a material effect on the financial statements of GovGuam.

In June 2005, GASB issued Statement No. 47, *Accounting for Termination Benefits*. GASB Statement No. 47 establishes guidance for state and local governmental employers on accounting and financial reporting for termination benefits. These benefits include incentives for voluntary terminations (e.g., early retirement window programs) and severance payments with respect to involuntary terminations. The provisions of this Statement are effective for periods beginning after June 15, 2005. Management does not believe that the implementation of this Statement will have a material effect on the financial statements of GovGuam.

X. Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results may differ from those estimates.

GASB Statement No. 40 addresses common deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk and foreign currency risk. As an element of interest rate risk, disclosure is required of investments that have fair values that are highly sensitive to changes in interest rates. GASB Statement No. 40 also requires disclosure of formal policies related to deposit and investment risks.

The deposit and investment policies of GovGuam are governed by 5 GCA 21, *Investments and Deposits*, in conjunction with applicable bond indentures. The Director of Administration is responsible for the safekeeping of all monies paid into the Treasury of Guam. The Director of Administration invests any monies of GovGuam that are deemed not necessary for immediate use. Legally authorized investments include securities issued or guaranteed by the U.S. Treasury or agencies of the United States government; demand and time deposits in or certificate of deposit of, or bankers' acceptances issued by, any eligible institution; corporate debt obligations, including commercial paper; certain money market funds; state and local government securities, including municipal bonds; and repurchase and investment agreements. With the exception of investments in U.S. government securities, which are explicitly or implicitly guaranteed by the United States government, all other investments must be rated Aa1/P-1 by Moody's.

A. Deposits

GASB Statement No. 3 previously required government entities to present deposit risks in terms of whether the deposits fell into the following categories:

- Category 1 Deposits that are federally insured or collateralized with securities held by GovGuam or its agent in GovGuam's name;
- Category 2 Deposits that are uninsured but fully collateralized with securities held by the pledging financial institution's trust department or agent in GovGuam's name; or
- Category 3 Deposits that are collateralized with securities held by the pledging financial institution's trust department or agent but not in GovGuam's name and non-collateralized deposits.

A. Deposits, Continued

GASB Statement No. 40 amended GASB Statement No. 3 to in effect eliminate disclosure for deposits falling into categories 1 and 2 but retained disclosures for deposits falling under category 3. Category 3 deposits are those deposits that have exposure to custodial credit risk. Custodial credit risk is the risk that in the event of a bank failure, GovGuam's deposits may not be returned to it. Such deposits are not covered by depository insurance and are either uncollateralized, or collateralized with securities held by the pledging financial institution or held by the pledging financial institution but not in the depositor-government's name. GovGuam does not have a deposit policy for custodial credit risk.

As of September 30, 2005, the carrying amount of the primary government's total cash and cash equivalents and time certificates of deposit was \$126,275,980 and the corresponding bank balances were \$136,343,272. Of the bank balance amount, \$39,501,959 is maintained in financial institutions subject to Federal Deposit Insurance Corporation (FDIC) insurance. The remaining amount of \$96,841,313 represents short-term investments held and administered by GovGuam's trustees in accordance with various trust agreements and bond indentures. Based on negotiated trust and custody contracts, all of these investments were held in GovGuam's name by GovGuam's custodial financial institutions at September 30, 2005. As of September 30, 2005, bank deposits in the amount of \$600,000 were FDIC insured. GovGuam does not require collateralization of its cash deposits; therefore, deposit levels in excess of FDIC insurance coverage are uncollateralized. Accordingly, these deposits are exposed to custodial credit risk.

As of September 30, 2005, short-term investments in the amount of \$33,642,836 are restricted for capital projects. Additionally, short-term investments in the amount of \$35,029,311 are restricted for future debt service requirements.

B. Investments

GASB Statement No. 3 previously required government entities to present investment risks in terms of whether the investments fell into the following categories:

- Category 1 Investments that are insured or registered, or securities held by GovGuam or its agent in GovGuam's name;
- Category 2 Investments that are uninsured and unregistered for which the securities are held by the counterparty's trust department or agent in GovGuam's name; or
- Category 3 Investments that are uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent but not in GovGuam's name.

GASB Statement No. 40 amended GASB Statement No. 3 to in effect eliminate disclosure for investments falling into categories 1 and 2, and provided for disclosure requirements addressing other common risks of investments such as credit risk, interest rate risk, concentration of credit risk, and foreign currency risk. GASB Statement No. 40 did retain and expand the element of custodial credit risk in GASB Statement No. 3.

B. Investments, Continued

Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

Concentration of credit risk for investments is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. GASB Statement No. 40 requires disclosure by issuer and amount of investments in any one issuer that represents five percent (5%) or more of total investments for GovGuam.

Custodial credit risk for investments is the risk that in the event of the failure of the counterparty to the transaction, GovGuam will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. GovGuam's investments are held and administered by trustees in accordance with various bond indentures for the purpose of funding various health-related projects under a tobacco settlement agreement and future debt service requirements. Based on negotiated trust and custody contracts, all of these investments were held in GovGuam's name by GovGuam's custodial financial institutions at September 30, 2005.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of debt instruments. GovGuam does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

As of September 30, 2005, GovGuam's investments in debt securities were as follows:

	Moody's Credit Rating	Less Than 1	Investment Maturities (In Years)			Fair Value
			1 to 5	6 to 10	Greater Than 10	
U.S. government agencies:						
Fannie Mae	Aaa/P-1	\$ 4,743,000	\$ -	\$ -	\$ -	\$ 4,743,000

		<u>\$ 9,336,000</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 8,120,000</u>	<u>\$ 17,456,000</u>

As of September 30, 2005, investments in debt securities in the amount of \$9,336,000 are restricted for future debt service requirements.

Additionally, as of September 30, 2005, the General Fund holds 9.5% of the shares of the Pacific Islands Development Bank in the amount of \$400,000. As the fair market value of this investment is not readily available, such has been recorded at cost.

Furthermore, as of September 30, 2005, the Interim Transition Coordinating Committee (ITCC) Fund holds Rural Telephone Bank (RTB) stock in the amount of \$933,800. This stock was previously issued to the Guam Telephone Authority (GTA) in accordance with the loan agreement between GTA and RTB and was carried at cost based on 933,800 shares of \$1 par value Class B stock. Upon the privatization and sale of GTA, certain assets and liabilities were retained by GovGuam and transferred to the ITCC Fund, which included the RTB stock.

Pension Trust Funds

Investments of the Government of Guam Retirement Fund (GGRF) include U.S. Federal Government and agency obligations, foreign government obligations, real estate, commercial mortgages, corporate debt, and equity instruments. Investments are reported at fair value. Security transactions and any resulting gains or losses are accounted for on a trade date basis.

Investments other than real estate, commercial mortgages and other loans, and municipal revenue bonds are reported at market values determined by the custodial agents. The agent's determination of market values includes, among other things, using pricing services or prices quoted by independent brokers at current exchange rates.

Commercial mortgages and other loans and municipal revenue bonds have been valued on an amortized cost basis, which approximates market or fair value. No allowance for loan loss has been provided as all loans and bonds are considered by management to be fully collectible. Short-term investments are reported at cost, which approximates market value.

For investments where no readily ascertainable market value exists, management, in consultation with their investment advisors, have determined the fair values for the individual investments based on anticipated maturity dates and current interest rates commensurate with the investment's degree of risk.

First Hawaiian Bank holds the investments as custodian in GGRF's name. In addition, GGRF has selected investment managers who are given authority to purchase and sell securities in accordance with the following guidelines:

- a. Cash and Cash Equivalents - Cash equivalent reserves must consist of cash instruments having a quality rating of A-2, P-2 or higher. Eurodollar Certificates of Deposit, time deposits, and repurchase agreements are also acceptable investment vehicles. All other securities will be, in the judgment of the investment managers, of credit quality equal to or superior to the standards described above. No single issue shall have a maturity of greater than two years, and the cash portfolio shall have a maturity of less than one year. Any idle cash not invested by the investment managers shall be invested daily through an automatic sweep managed by the custodian.

- b. Investment managers may invest in U.S. and non-U.S. common stocks, American Depository Receipts (ADRs), convertible bonds, preferred stocks, fixed-income securities, mutual funds and short-term securities. All fixed-income securities held in the portfolio must have a Moody's, Standard & Poor's and/or a Fitch's credit quality rating of no less than "BBB". U.S. Treasury and U.S. government agencies are qualified for inclusion in the portfolio. No more than twenty percent (20%) of the market value of the portfolio may be rated less than single "A" quality, unless the manager has specific written authorization. Eighty percent (80%) of the fixed-income portfolio must be in bonds of credit quality of no less than "A". Total portfolio quality (capitalization weighted) must maintain an "A" minimum rating. In case such bonds or other evidence of indebtedness are not so rated by two nationally recognized and published rating services, the net earnings available for fixed charges over a period of five fiscal years preceding the date of investment have averaged per year and during either of the last two years have been, after depreciation and taxes, not less than:
- i. Two times its average annual fixed charges over the same period, in the case of any public utility company;
 - ii. One and one-half times its average annual fixed charges over the same period, in the case of any financial company; or,
 - iii. Three times its average annual fixed charges over the same period, in the case of any other company.

With the written petition and subsequent written approval of the Trustees, opportunistic investment bonds issued by national governments other than the United States or foreign corporations may comprise up to six percent (6%) of each fixed-income manager's portfolio. In no case shall these investments exceed three and one-half percent (3.5%) of the total GGRF investments. All non-U.S. securities will be, in the judgment of the investment managers, of credit quality equal to or superior to the standards described above.

- c. No investment management organization shall have more than twenty-five percent (25%) of the GGRF's assets under its direction.
- d. No individual security of any issuer, other than that of the United States government or GovGuam, shall constitute more than five percent (5%), at cost, of the total GGRF or of any investment manager's portfolio.
- e. Holdings of any issuer must constitute no more than five percent (5%) of the outstanding securities of such issuer.
- f. Investments in a registered mutual fund managed by the investment manager are subject to prior approval of the Board of Trustees.

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that GGRF manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of GGRF's investments (including investments held by bond trustee) to market interest rate fluctuations is provided by the following table that shows the distribution of the GGRF's DB plan investments by maturity:

GGRF's investments are typically made in corporate equities, U.S. Treasury obligations, and commercial paper. These types of investments are not more sensitive to interest rate fluctuations than as already indicated above. Investments that are highly sensitive to interest rate fluctuations include Federal agency securities with coupon multipliers that are reset frequently, mortgage-backed securities, and Federal agency securities with interest rates that vary inversely to a benchmark set quarterly.

GGRF has invested in mortgage backed securities, which are more sensitive to fluctuations in interest rates than already indicated in the information provided above. Such securities are subject to early payment in a period of declining interest rates. The resultant reduction in expected total cash flows affects the fair value of these securities and makes the fair values of these securities highly sensitive to changes in interest rates. At September 30, 2005, GGRF held mortgage-backed securities valued at approximately \$116 million.

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

Presented below is the minimum rating required by (where applicable) the Guam Code Annotated and GGRF's investment policy, and the actual rating as of September 30, 2005:

<u>Investment Type</u>	<u>Minimum Legal Rating</u>	<u>Amount</u>	<u>Rating as of Year End</u>
U.S. Treasury notes	N/A	\$ 189,648,144	Exempt from disclosure
Federal agency securities	N/A	91,275,447	Exempt from disclosure
Money market funds	A-2	45,367,251	AAA _m
Corporate medium term notes	BBB	89,507,107	Aaa
		18,228,717	Aa1-Aa3
		31,121,371	A1-A3
		65,026,598	Baa1-Baa3
		1,506,118	Ba1-Ba3
		<u>53,231,337</u>	Not rated/cash
		<u>\$ 584,912,090</u>	

GGRF's investment policy contains limits on the amount that can be invested in any one issuer. At September 30, 2005, the Fund did not hold any investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total GGRF investments.

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

The Guam Code Annotated and GGRF's investment policy contain legal requirements that limit the exposure to custodial credit risk for deposits and investments. The Guam Code Annotated requires that a financial institution secure deposits made by GovGuam agencies by pledging securities in: "(a) Treasury notes or bonds of the United States, or those for which the faith and credit of the United States are pledged for the payment of principal and in interest, (b) any evidence of indebtedness of the government of Guam, (c) Investment certificates of the Federal Home Loan Bank, or (d) such other securities as may be ... approved by the Director of Administration and the Governor of Guam." The fair market value of the pledged securities must be at least ten percent (10%) in excess of the amount of monies deposited with the bank.

Further, to address custodial risk, the Guam Code Annotated requires the custodian to have been in the business of rendering trust custody services for ten or more years, to be organized under the laws of the United States or a state or territory thereof, to have capital and surplus in excess of Ten Million Dollars (\$10,000,000), and to be a member of the Federal Reserve System whose deposits are insured by the Federal Deposit Insurance Corporation. Regardless of the above, any locally chartered bank may act as custodian for GGRF.

(3) Long-Term Obligations

As of September 30, 2005, the primary government had the following long-term debt outstanding:

General Obligation Bonds, 1993 Series A (original issue of \$175,000,000), varying interest rates at 3% - 5.4% per annum, payable semiannually in May and November, principal fund payments due in varying annual installments commencing with a payment of \$2,490,000 in November 1994 and increasing to \$12,140,000 in November 2018. The bonds have been issued for the purpose of implementing capital projects.

\$ 123,685,000

General Obligation Bonds, 1995 Series A (original issue of \$115,000,000), varying interest rates at 4.6% - 6% per annum, payable semiannually in March and September, principal fund payments due in varying annual installments commencing with a payment of \$5,650,000 in September 1996 and increasing to \$16,785,000 in September 2005, with a final payment due of \$2,085,000 in September 2006. The bonds have been issued for the purpose of implementing certain capital projects and payment of certain general fund expenditures.

As of September 30, 2005, \$37,239,202 has been accumulated in the Debt Service Funds to service the General Obligation and Special Revenue Bonds. Additionally, the debt service funds contain \$2,070,174 of resources that management has designated to be used for debt service. However, a legal opinion has been solicited, but not received, that will determine whether this amount should be returned to the General Fund. There are a number of limitations and restrictions placed on the bonds as specified below:

General Obligation Bonds:

General Obligation Bonds 1993 Series A - This bond series was issued on September 15, 1993 for the purpose of implementing certain capital projects comprised of new or renovated educational facilities. In accordance with the bond indenture, the Depository created a Construction Fund, the amounts therein to be used solely for (1) the purpose of implementing capital projects pursuant to the Act, (2) the payment of costs of issuance, and (3) the payment of principal and interest on the bonds. On or before the fifth day of each calendar month, GovGuam deposits into a Bond Fund held by the Trustee, an amount equal to the amount necessary to increase the amount in the Bond Fund to the aggregate amount for all outstanding bonds of all unpaid interest, principal and Mandatory Sinking Account payments which is required to be transferred to the Bond Fund.

General Obligation Bonds 1994 Series A - This bond was issued on August 15, 1994 for the purpose of discharging GovGuam's obligation to pay refunds owed to taxpayers who have filed their income tax forms with GovGuam. Final payment for principal and interest occurred on August 15, 1999. Therefore, no further obligations with regard to the bond covenants exist for this debt service fund as of September 30, 2005. However, an interfund receivable balance with the General Fund and a corresponding credit to reserve for related assets is recorded in this fund until a final decision is made on the disposition of the fund balance.

General Obligation Bond 1995 Series A - This bond was issued on June 1, 1995 for the purpose of discharging obligations for income tax refunds, supplemental retirement benefits, transfer payments to government agencies and to vendors to the extent obligations were incurred or previously obligated by GovGuam prior to May 15, 1995 and to pay the costs of issuance of such borrowing. The Depository has created a Bond Fund to be used solely (1) to pay General Fund expenses pursuant to the indenture, (2) to pay costs of issuance, and (3) to be held as a reserve for the payment of principal of and interest on the Bonds. The amount in the Bond Fund as of September 30, 2005 is \$781,227.

(3) Long-Term Obligations, Continued

General Obligation Bonds, Continued:

Public Law 22-19 has authorized the creation of the Territorial Education Facilities Fund that requires that all real property tax revenues received shall be deposited into this fund. While such deposits are not pledged, these shall be used to pay the principal and interest on bonds issued for Capital Improvement Projects provided for under the General Obligation Bonds 1993 Series A indenture.

Public Law 23-14 was created to authorize the Governor to issue general bonds for the purposes of constructing and refurbishing territorial educational facilities, paying certain General Fund expenses, and creating a funding source for repayment of such bonds.

Management of GovGuam believes that it is in compliance with all significant limitations and restrictions of the bond indentures as of September 30, 2005.

Indentures to the 1997 Series A Bonds:

The 1997 Series A bonds are limited obligations of GovGuam payable entirely from a first lien and pledge of revenues. Revenues are defined in the bond indenture as all amounts received from the imposition of hotel occupancy taxes. GovGuam has pledged to maintain these revenues at a level sufficient to equal the sum of 1.25 times the aggregate debt service becoming due within the next fiscal year; plus amounts required to be deposited pursuant to the tax certificate for the bonds and amounts required to meet the bond reserve fund requirement.

In accordance with the bond indenture, the depository has created a trust account known as the "Construction Fund." Amounts deposited therein are used to (1) implement capital improvement projects prescribed in Public Law 29-137, adopted on January 2, 1997, (2) pay the cost of bond issuance and letter of credit fees and (3) pay the principal and interest on the bonds should other sources be insufficient.

All pledged revenues are to be deposited into a special account entitled the "Revenue Fund." In addition, all interest and other profit derived from investments, except those in the "Construction Fund," are to be transferred monthly to the "Revenue Fund." Transactions of the "Revenue Fund" account are accounted for in the Debt Service Fund. On the twentieth day of each month following the month the revenues are deposited, the depository is to deposit into the following funds (all accounted for within the Debt Service Fund) the specified amounts in the following order of priority:

- Bond Fund - an amount equal to the sum of (1) the aggregate amount of interest to accrue on the bonds during the next succeeding calendar month upon all bonds then outstanding, plus (2) an amount which, if paid in equal monthly installments in each month over the semiannual or annual period prior to the next principal date, would aggregate to the amount of principal then becoming due and payable on the outstanding serial bonds on such principal payment date, plus (3) an amount which, if paid in equal monthly installments in each month over the semiannual or annual period prior to the next principal date, would aggregate to the amount of the mandatory sinking fund payments required to be paid for the outstanding term bonds on such principal payment date.
- Rebate Fund - an amount, if any, needed to be deposited therein pursuant to the rebate certificate with respect to the 1997 Series A Bonds.

(3) Long-Term Obligations, Continued

Indentures to the 1997 Series A Bonds, Continued:

- Bond Reserve Fund - an amount, if any, needed to equal to the lesser of (1) the maximum annual debt service, (2) 10% of the proceeds received from the sale of the bonds and (3) 125% of average annual debt service on the bonds or an amount as may be specified by supplemental indentures providing for the issuance of a series of bonds. The maximum annual debt service is defined as the sum of (1) the interest falling due on the then outstanding bonds, (2) the principal amount of the outstanding serial bonds falling, due by their terms, and (3) the aggregate amount of all mandatory sinking payments required; all as computed for the bond year in which such sum shall be the largest. Amounts in the Bond Reserve Fund are to be used for the purpose of making up any deficiency in the Bond Fund.
- Bond Expense Fund - an amount equal to the amount of bond expenses estimated by the trustee to be due and payable during the next succeeding calendar month.

The General Obligation Bonds constitute the valid and legally binding general obligation of GovGuam, and GovGuam pledges its full faith and credit for the punctual payment of principal and interest on the bonds. Additionally, certain revenues are specifically pledged to secure the payment of said principal and interest. As defined by the terms of the bond indenture, these revenues include the following: (1) all amounts received by GovGuam as proceeds of Federal income taxes derived from Guam ("Section 30" monies); (2) customs duties collected by GovGuam derived from Guam; (3) the proceeds of all taxes collected under the internal revenue laws of the United States on articles produced in Guam and transported to the United States, its Territories or possessions, or consumed in Guam; and (4) the proceeds of any other taxes which may be levied by Congress on the inhabitants of Guam. "Revenue" further includes all interest, profits or other income derived from investments in any fund or account created pursuant to the bond indenture.

Indentures to the 2001 Series A Bonds (Special Revenue Bonds):

The 2001 Series A bonds are limited obligations of GovGuam payable entirely from a first lien and pledge of revenues. Revenues are defined in the bond indenture as all amounts received from the imposition of vehicle registration fees, license fees and certain penalties, and from taxes on the sale of gasoline, aviation and diesel fuels. GovGuam has pledged to maintain these revenues at a level sufficient to equal annual budgeted highway maintenance and operating expenses plus 1.2 times the aggregate debt service becoming due within the next fiscal year.

In accordance with the bond indenture, the depository has created a trust account to be known as the "Construction Fund". Amounts deposited therein are used to (1) implement highway capital improvement projects based on Public Law 21-110 signed by the Governor on June 1, 1992, (2) pay the costs of bond issuance, and (3) pay the principal and interest on the bonds should other sources be insufficient. The "Construction Fund" account is accounted for within the Highway Bond Projects Capital Projects Fund.

All pledged revenues are to be deposited into a special account entitled the "Revenue Fund". In addition, all interest and other profit derived from investments, except those in the "Construction Fund," are to be transferred monthly to the "Revenue Fund". Transactions of the "Revenue Fund" account are accounted for in the Debt Service Fund. On the fifth day of each month following the month the revenues are deposited, the depository/trustee is to deposit into the following funds the specified amounts in the following order of priority:

Maintenance and Operation Fund - the amount of maintenance and operation expenses budgeted by GovGuam to be paid during the next succeeding calendar month. Amounts in the Maintenance and Operation Fund are to be used for the purpose of paying GovGuam highway maintenance and operation costs. This account is a component of the Debt Service Fund.

Maintenance and Operation Reserve Fund - an amount to increase the balance therein equal to 1.5% of the original aggregate principal amount of bonds of each series having bonds outstanding. Amounts in the Maintenance and Operation Reserve Fund are to be used to pay GovGuam highway maintenance and operation expenses should amounts in the Maintenance and Operation Fund be insufficient. Accounting for this Fund is performed within the Debt Service Fund.

Surplus Fund - the balance remaining in the revenue fund after all of the foregoing deposits. Amounts in the Surplus Fund are to be used for the purpose of paying other costs and expenses budgeted by GovGuam. Transactions to and from the Surplus Fund are accounted for in the Debt Service Fund.

(4) Commitments and Contingencies

A. Federal Grants

GovGuam has received federal grants for specific purposes that are subject to review and audit by the grantor agencies. Questioned costs for the 2005 and prior year audits aggregate to a material amount. If the questioned costs were ultimately disallowed, the general fund would be liable for the return of such funds. However, no liability, which may arise from the ultimate outcome of this matter, has been provided for in the accompanying basic financial statements.

Audits of federal program funds are also performed by various federal agencies. If the audit results in cost disallowances, the general fund may be liable. However, management does not believe that resolution of this matter will result in a material liability. Therefore, no liability for any amount, which may ultimately arise from these matters, has been recorded in the accompanying basic financial statements.

Fines and penalties may also be imposed by various federal agencies for violations of certain regulations. However, no provision for any amount has been recorded in the accompanying basic financial statements, as it is not possible to predict a reasonable estimation of these fines and penalties.

B. Earned Income Tax Credit (EITC) Refunds

In June 2004, GovGuam agreed to pay \$60,000,000 over nine years in settlement of unpaid EITC refunds from 1996. The settlement plan allowed for non-interest bearing tax credit refunds amounting to \$20,000,000 over the next year, of which \$3,000,000 shall be paid into the EITC Fund within thirty days from the approval of the settlement agreement, and approximately \$1,500,000 per month for eleven months following the first installment. The remaining balance is to be paid at approximately \$5,000,000 over the next eight years, beginning June 30, 2006. As of September 30, 2005, a tax liability of \$60,000,000 has been recorded for this settlement agreement. Subsequent to September 30, 2005, GovGuam reached a new settlement agreement replacing the June 2004 agreement whereby GovGuam agreed to pay up to \$90,000,000. According to the agreement, GovGuam will be required to set aside \$15,000,000 each into the following six categories:

- Tax years 1995, 1996, 1999, 2000
- Tax year 1998
- Tax year 2001
- Tax year 2002
- Tax year 2003
- Tax year 2004

Ratification of the revised settlement agreement, including payment terms, is pending approval by the District Court. GovGuam is presently unable to ascertain the total potential EITC refunds under this revised settlement agreement. Accordingly, no provision for any tax liability in excess of the \$60,000,000 already recorded that may result has been made in the accompanying basic financial statements.

C. Sick Leave

It is the policy of GovGuam to record the cost of sick leave when leave is actually taken and a liability is actually incurred. Generally, sick leave is paid only when an employee is absent due to illness, injury or related-family death. For this reason, no sick leave liability is recorded at September 30, 2005. The estimated accumulated amount of unused sick leave at September 30, 2005, is \$72,167,906, of which \$9,215,843 may be convertible by the GovGuam Retirement Fund Defined Contribution Retirement System (DCRS) employees upon retirement. Sick leave balances are only available for the line departments of the executive branch.

D. Litigation

GovGuam is unable to assess the likelihood of potential liabilities related to claims outstanding as of the year ended September 30, 2005. The Attorney General is of the opinion that GovGuam's maximum liability in total for these cases is material to the financial statements as of September 30, 2005. However, it is not possible to predict a reasonable estimation of these claims to be paid through the claims process, as set forth in footnote 4E below, and therefore, no provision for any liability that may result has been made in the accompanying financial statements.

GOVERNMENT OF GUAM

Notes to Financial Statements

(4) Commitments and Contingencies, Continued

E. Self-Insurance

GovGuam does not purchase insurance covering potential risks; it is substantially self-insured against claims for negligence and catastrophic losses. In the event that losses arise from such claims or disasters, the General Fund would be required to pay the majority of these losses. An annual appropriation is made to the Government Claims Fund and then valid claims are paid out against the appropriated amount. GovGuam has not experienced material prior year losses as a result of this policy. Virtually all discretely presented component units have some form of commercial insurance to insure against risk of loss such as property, liability and typhoon.

F. Deposits with Treasurer

Insurance companies doing business on Guam, are required under sections 43102 and 43202 of the Government Code of Guam, to deposit with the Commissioner of Insurance an amount equal to the minimum amount of paid-in-capital required under Article III of Title 39 of the Government Code. The deposit requirement is met with any good and sufficient bond as set by the Commissioner. Bonds currently take various forms and range from a surety bond to bank certificates of deposit. Deposits are likewise required of foreign banks and foreign exchanges. At September 30, 2005, approximately \$13,473,213 was held by GovGuam in bonds as security against possible claims.

G. Medicare

GovGuam did not withhold or remit funds to the U.S. Social Security System for the health insurance component. GovGuam has since reevaluated this position and has commenced withholding such amount from its employees beginning in October 1998. If GovGuam is found to be liable for prior year nonpayment an indeterminate liability could result. Therefore, no liability for any amount, which may ultimately arise from this matter, has been recorded in the accompanying financial statements.

H. Commitments

GovGuam and its discretely presented component units have commitments under contracts at September 30, 2005.

I. Tax Drawback

On September 20, 2004, GovGuam settled a liquid fuel tax refund dispute with a fuel supplier in the amount of \$6,583,382, which resulted in a gain of \$5,893,926 plus \$1.7 million in previously unrecorded interest that was waived.

As of September 30, 2005, the tax refund amounted to \$4,800,106, of which \$594,057 represents claims in litigation, for which the outcome is currently undeterminable, and \$4,206,050 relating to the abovementioned settlement. Under the terms of the agreement, the refund will be paid over a period of three years and will involve the offset against future liquid fuel tax payments in the amount of \$182,872 per month.

J. Ordot Dump

On February 11, 2004, the U.S. Environmental Protection Agency and the U.S. Department of Justice filed a Consent Decree in the United States District Court of Guam. The consent decree includes deadlines for the opening of a new landfill and implementing an Ordot Dump closure plan. Within a period of forty-five months, GovGuam is required to complete an environmental impact statement analyzing at least three potential new landfill locations; complete design, permitting, and construction for the selected landfill location; begin operations at the new landfill; and properly and permanently close the Ordot Dump. In the event that GovGuam fails to meet any of the stipulated deadlines under the consent decree, GovGuam will be liable for civil penalties. Although closure and post closure care costs will be paid only near or after the date that Ordot Dump stops accepting waste, GovGuam's governmental activities reports a portion of these closure and post closure care costs as an expense in each period based on landfill capacity used as of each balance sheet date. The \$16,641,000 reported as landfill closure and post closure care liability at September 30, 2005 within the accompanying financial statements, represents the cumulative amount reported based on 100 percent capacity. This amount is based on what it would cost to perform all closure and post closure care in 2005. GovGuam expects to close the landfill within the required timeframe. Actual cost may be higher due to inflation, changes in technology or changes in regulations.

(5) Unfunded Retirement Fund Contributions

As of the fiscal year ended September 30, 1994, the GovGuam Retirement Plan was a defined benefit, single-employer contributory pension plan created and administered by GovGuam. Membership in the Plan was mandatory for all full-time employees, except for those compensated on a fee basis, independent contractors, and persons aged 60 or over upon employment. The Plan is administered by the GovGuam Retirement Fund to which all funds and agencies, including component units, as well as employees who are members of the Plan, contribute a fixed percentage of the payroll. Most employees may retire with full benefits at age 60 with at least 10 years of service, or after 25 years of service, regardless of age. Vesting of benefits is optional for employees with 3 to 19 years of service, but is mandatory for employees with 20 or more years of service.

On September 30, 1995, the DCRS Plan, a defined contribution retirement plan, was created. All employees hired after September 30, 1995 are participants in the DCRS plan. The GovGuam Retirement Fund Defined Benefit (DB) Plan will become a closed group.

As a result of the most recent actuarial valuation performed as of September 30, 2003, it has been determined that for the year ended September 30, 2005, a minimum combined employer and employee contribution rate of 34.39% (9.5% for employees and 24.89% for employer) of covered Defined Benefit Plan payroll is required to appropriately fund the current cost, amortize prior service costs and provide for interest on the unfunded accrued liability.

The latest actuary's report indicates that the Plan has 5,657 active members, 4,756 service retirees, 505 disability retirees, 1,236 spouse pensioners and 312 child pensioners.

(5) Unfunded Retirement Fund Contributions, Continued

The Plan utilizes the actuarial cost method termed "entry age normal" with an assumed rate of return of 7%, an assumed payroll cost increase of 3.5%, and an assumed salary scale increase of 4.0% - 8.5% per annum. The actuarial valuation performed as of September 30, 2003, did not provide a breakdown of actuarial present value of vested and non-vested accumulated plan benefits by sponsor or net assets available for benefits by sponsor. If the actuarial valuation was performed for the primary government, as a separate sponsor, the accrued unfunded liability at September 30, 2005, may be materially different than that recorded in the accompanying financial statements.

Contributions into the DCRS plan by members are based on an automatic deduction of 5% of the member's regular base pay. The contribution is periodically deposited into an individual annuity account within the DCRS. Employees are afforded the opportunity to select from different annuity accounts available under the DCRS.

Statutory employer contributions into the DCRS plan for the year ended September 30, 2005, are determined using the same rate as the DB plan. Of the amount contributed by the employer, only 5% of the member's regular pay is deposited into the member's individual annuity account. The remaining amount is contributed towards the unfunded liability of the defined benefit plan.

Members of the DCRS plan, who have completed five years of government service, have a vested balance of 100% of both member and employer contributions plus any earnings thereon.

GovGuam has adopted the provisions of GASB Statement No. 27, *Accounting for Pensions by State and Local Governmental Employees*. As the result of Public Law 21-03, the unfunded pension liability for the University of Guam and the Guam Community College is included within the governmental activities in the accompanying statement of net assets, which amounts to \$5,361,724 and \$4,060,942, respectively, as of September 30, 2005.

(6) Privatization and Sale of the Guam Telephone Authority

On August 31, 2004, the Guam Telephone Authority (GTA) entered into an Asset Purchase Agreement (APA) with TeleGuam for the privatization of GTA. Based on the terms of the APA, certain assets and liabilities of GTA, as of the closing date of December 31, 2004, were transferred to TeleGuam effective January 1, 2005 for a total purchase price of \$150,000,000. The purchase price consisted of a \$10,000,000 promissory note and \$140,000,000 cash purchase price, that was subject to adjustment pending completion of the purchase price adjustment procedure as described in Section 2.5 of the APA.

In accordance with the APA, the following assets and liabilities were to be retained by GovGuam and transferred to the Interim Transition Coordinating Committee (ITCC) Fund:

Assets:

- a. All cash and equivalents at closing date except customer deposits.
- b. Title to land.
- c. GTA's rights and claims to insurance carriers.
- d. Rural Telephone Bank (RTB) stock.

(6) Privatization and Sale of the Guam Telephone Authority, Continued

During the year ended September 30, 2005, \$3,201,591 in cash equivalents were transferred by GTA to a checking account in the name of the ITCC Fund. This checking account is maintained by GovGuam within the General Fund. As of September 30, 2005, the balance maintained within this checking account amounted to \$2,471,388. Furthermore, RTB stock was transferred by GTA to the ITCC Fund in the amount of \$933,800.

Liabilities:

- a. Arising from the APA.
- b. Resulting from non-compliance with the provisions of the Uniform Commercial Code.
- c. For borrowed monies, including long-term debt to the Rural Utilities Service (RUS), RTB and the Federal Financing Bank (FFB).
- d. Pertaining to environmental conditions.
- e. Arising in connection with the GTA's Benefit Plan.
- f. To present or former employees.
- g. Relating to excluded assets or expired purchase orders.

Pursuant to Public Law 28-94, GovGuam was required to pay the unfunded liability of GTA's defined benefit plan to the GovGuam Retirement Fund. As of September 30, 2005, this amounted to \$11,900,000, which has been recorded as a liability due to pension trust funds of the GTA Privatization Proceeds Fund within the accompanying financial statements.

The \$140,000,000 was deposited into the following accounts pursuant to the terms of the Escrow Agreement and Public Law 26-70, as amended:

Cushion of Credit Account - \$108,204,064 was deposited into an interest bearing Cushion of Credit Account (Cushion Account) at the Federal Reserve Bank in New York pursuant to a Cushion Agreement between GTA and RUS. This represented long-term debt owed by GTA to RUS, RTB and FFB, which were not assumed by TeleGuam. Subsequent to the final payment of all outstanding debt owed to RUS, RTB and FFB, the remaining balance in the Cushion Account, totaling \$3,556,552, was transferred from the GTA Privatization Proceeds Fund to the ITCC Fund.

Balance Account - \$21,571,909 was deposited into an interest bearing escrow account known as the "Balance Account" maintained by U.S. Bank, to be used to pay any retained liabilities.

Deposit Account - \$9,224,027 was deposited into an interest bearing escrow account known as the "Deposit Account" maintained by U.S. Bank to be used to pay the purchase price adjustment. On December 21, 2005, a final settlement was made between GovGuam and TeleGuam resulting in a payment from the Deposit Account to TeleGuam in the amount of \$5,894,593. This amount has been recorded within the accompanying financial statements and is reflected as a liability of the GTA Privatization Proceeds Fund.

Indemnification Account - \$1,000,000 was deposited into an interest bearing escrow account known as the "Indemnity Account" maintained by U.S. Bank. The \$1,000,000 is to be maintained in escrow pursuant to a side letter agreement entered into between GTA and TeleGuam and will be released upon successful resolution of the Tiyan condemnation proceedings or go towards relocation costs if the resolution of the proceedings requires relocation of the Tiyan Remote Switching Center or the proceedings are not resolved by December 31, 2007.

In January 2005, a \$4,665,307 payment was made for the RUS, RTB and FFB principal and interest payments which were due on December 31, 2004. The payment consisted of principal and interest payments of \$2,102,701 and \$2,562,604, respectively. On March 31, 2005, a final payment was made in the amount of \$103,085,425 for the remaining unpaid principal and accrued interest on the RUS, RTB and FFB loans. The payment consisted of principal and interest payments of \$99,445,654 and \$3,639,771, respectively.

B. Deposits and Investments

GASB Statement No. 3 previously required government entities to present investment risks in terms of whether the investments fell into the following categories:

Category 1 Investments that are insured or registered, or securities held by the component units' or its agent in the component units' name;

Category 2 Investments that are uninsured and unregistered for which the securities are held by the counterparty's trust department or agent in the component units' name; or

Category 3 Investments that are uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent but not in component units' name.

GASB Statement No. 40 amended GASB Statement No. 3 to in effect eliminate disclosure for investments falling into categories 1 and 2, and provided for disclosure requirements addressing other common risks of investments such as credit risk, interest rate risk, concentration of credit risk, and foreign currency risk. GASB Statement No. 40 did retain and expand the element of custodial credit risk in GASB Statement No. 3.

All gross revenues of GPA have been pledged to repay the 1993 and 1999 series bond principal and interest. Discounts associated with 1993 and 1999 bond series are being amortized using the effective interest method over the lives of the bonds. On September 28, 2000, GPA entered into a Bond Reserve Fund Forward Delivery Agreement (the agreement) with the US Bank Trust National Association and Bank of America. In connection with the agreement, GPA received cash totaling \$13.5 million in October 2000 representing the present value amount of interest income on certain bond proceeds invested by GPA.

Based on the terms of the agreement, gross proceeds totaled \$17,521,029 while GPA incurred termination fees and closing costs totaling \$3,530,000 and \$1,250,529, respectively. The \$13.5 million in net proceeds received included \$759,500 of interest income earned as of the closing date of the agreement. The gross proceeds, termination fees and closing costs will be deferred and amortized on a straight line basis over the average remaining life of the 1993 and 1999 bonds.

Leases

Guam Power Authority (GPA):

In September 1996, GPA entered into agreements to purchase electricity produced by generating plants constructed or refurbished and operated by three companies. The agreements have twenty-year terms. At the end of the agreements, ownership of the plants and the plant improvements reverts to GPA. Under each of the agreements, GPA pays capacity and operation and maintenance costs. GPA retroactively implemented the accounting guidance of EITF No. 01-8, effective October 1, 2001. EITF No. 01-8 provides guidance in determining when purchase agreements may be subject to lease accounting. In applying EITF No. 01-8, GPA determined that the agreements to purchase electricity were in fact capital leases to acquire the plants and that the capacity payments made under the agreements were lease payments. The operations and maintenance payments under the agreements continue to be reflected as operation and maintenance expenses.

The leases have effective interest rates ranging from 8.6% - 14.2%. Future capacity payments under these agreements are as follows:

Leases, Continued

Guam Power Authority (GPA), Continued:

On December 31, 2002, GPA entered into a lease agreement for its office building for an initial term of two years with a monthly rental of \$25,000, with an option to extend for three additional one-year terms.

GPA also leases fuel storage tanks for a monthly fee of \$100,000 beginning September 1998, increasing to \$107,500 in March 2003. The initial term of the lease is for a period of 10 years with an option to renew for an additional 5-year period, expiring on September 2013, at an increased monthly lease fee of \$115,650.

At September 30, 2005, future minimum lease payments for the aforementioned leases are as follows:

<u>Year Ending</u> <u>September 30,</u>	
2006	\$ 1,639,307
2007	1,639,307
2008	1,414,307
2009	18,885
2010	<u>16,119</u>
	\$ <u>4,727,925</u>

University of Guam (UOG):

In November 1997, UOG entered into a ten-year capital lease agreement to obtain equipment for an energy conservation project. Future obligations under the capital lease are as follows:

<u>Year Ending</u> <u>September 30,</u>	
2006	\$ 173,530
2007	173,530
2008	<u>130,149</u>

	436,331
Less current portion	<u>(209,304)</u>
	\$ <u>227,027</u>

Approximately \$1 million of construction in progress related to the energy conservation project was subsequently written off.

Environmental Monitoring

In September 2000, the Navy transferred 1,417 acres of property to GIAA and GovGuam at no cost. In November 2000, the Navy paid GIAA \$10 million. In exchange for the payment, GIAA and GovGuam agreed to complete certain environmental monitoring work on the property even if the cost of the environmental monitoring work exceeds the \$10 million remitted by the Navy. Under this cooperative agreement, the United States Navy may terminate or suspend the agreement if GIAA and GovGuam fail to complete such monitoring work. The future cost of the environmental monitoring work is presently not determinable. Accordingly, no loss, if any, that may result from the matter, has been recorded in the accompanying financial statements for this transaction.

Guam Waterworks Authority (GWA) EPA Violation

In December 2002, the United States Government filed a complaint against GWA and GovGuam for alleged violations under the Federal Clean Water Act (CWA) and the Safe Drinking Water Act (SDWA). Because of GWA's non-compliance with the National Primary Drinking Water Regulations, the U.S. Government is seeking both civil penalties and injunctive relief to address such non-compliance. GWA and the U.S. Department of Justice, Environmental and Natural Resources Division, mutually agreed in the form of Stipulated Order to resolve the violation issues. On June 5, 2003, Stipulated Order For Preliminary Relief was filed before the District Court of Guam. The Stipulation requires implementation of short-term projects and initial planning measures by GWA. GWA is required to submit a final financial plan in the Master Plan, that generates sufficient revenues to cover the cost of all compliance activities and deliverables required by the Stipulated Order for Preliminary Relief, as well as any other anticipated expenses, including any measures necessary to ensure compliance with the CWA and the SDWA and costs related to the infrastructure improvements identified in the Master Plan.

GWA has entered into a long-term agreement to purchase a minimum of 3 to 4 million gallons per day of potable water at \$1.57 per 1,000 gallons for a period of 20 years. If GWA decides to terminate the agreement, GWA must pay a fixed termination fee. In March 2006, GWA terminated this long-term agreement.

E. Subsequent Events

In January 2006, the Guam Waterworks Authority (GWA) issued a bond in the amount of \$101,175,000 for the purpose of funding capital improvements to GWA's water and wastewater systems, refinancing certain outstanding obligations of GWA, and financing new water meters. Interest on the bond is payable on January 1 and July 1 of each year, commencing January 1, 2006. Interest accrues on a 360 day year twelve 30-day months. The bond matures on July 1, 2035.

E. Subsequent Events, Continued

GWA fully paid the debt to Municipal Services Group, Inc. (MSG) through the above debt issuance. As a result, MSG has indicated that it may make a claim against GWA in connection with the investment earnings on the Acquisition Fund for the Certificates of Participation 2005 Services relative to financing the purchase and installation of GWA's water meters. No provision has been recorded in the accompanying financial statements for any liability, if any, that may result from the matter as it is management's position that no claim will ultimately be asserted.

GOVERNMENT OF GUAM

Note to Required Supplementary Information – Budgetary Reporting September 30, 2005

Budgetary Process

Legislation requires the Governor to present a proposed budget to the Legislature at the beginning of each annual session. The Legislature enacts the budget through passage of specific departmental appropriations. Before signing the Appropriations Act, the Governor may veto or reduce any specific appropriation, subject to legislative override. Once passed and signed, the budget becomes the Territorial financial plan for the ensuing fiscal year. Supplemental appropriations for specific purposes are made throughout the year.

Budgetary control is maintained within the departmental level. Budget revisions during the year, reflecting program changes or intradepartmental transfers of an administrative nature, may be effective with certain executive and legislative branch approval. Unencumbered appropriations normally lapse at the end of each fiscal year unless they are designated by the Legislature as representing continuing appropriations.

The Budget Act for fiscal year 2005, Public Law 27-106 and 27-107 was approved for the Executive branch and the Legislative branch. Budgets for Special Revenue Funds are generally not submitted. Accordingly, a budget to actual presentation for Special Revenue Funds is not required or presented. Project length financial plans are adopted for capital projects funds.

GovGuam's annual budget has been prepared on a basis, which differs from governmental GAAP. Actual amounts in the accompanying budgetary comparison statements are presented on a budgetary basis, which includes outstanding encumbrances as a budgetary expenditure.

GOVERNMENT OF GUAM

Nonmajor Governmental Funds - Special Revenue Funds September 30, 2005

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes. A brief discussion of GovGuam's nonmajor governmental funds - special revenue funds as of September 30, 2005, follows.

1999 SPG Revolving Fund - This fund was created by Public Law 25-01 for planning, conducting and hosting the 1999 South Pacific Games.

Accessible Parking Fund - The fund was created by Public Law 18-28 to ensure that disabled persons are given equal access to government offices and services. Revenues are generated from fines collected from those parked illegally in handicapped parking spaces. Expenditures are authorized for maintenance of disabled parking areas.

Agana Fractional Lots Program Fund - The Agana Fractional Lots Program Fund was initially established to account for transactions relevant to the Agana Fractional Lot Program dating back to the 1960s. Such transactions may involve the condemnation and seizure of lands from property owners by GovGuam and the compensation of those seized lands to the property owners.

Air Pollution Control Fund - This fund was created by Public Law 24-40 to provide a coordinated Territory-wide program of air pollution prevention, abatement, and control. Revenues are derived primarily from permit application fees and annual emission fees.

Aquaculture Development and Training Fund - This fund was created by Executive Order 88-023 to cover the costs associated with production relating to the Aquaculture Development and Training Center. Revenues for this fund are generated from the sale of the Center's products, leased equipment and facilities and service fees. The fund is administered by the Department of Commerce.

Autonomous Agency Infrastructure Collections Fund - This fund, created by Public Law 24-14, was created to ensure the health and public safety of the people of Guam and public works. The revenues are derived from the operating surpluses generated by autonomous agencies.

Banking and Insurance Enforcement Fund - This fund was created by Public Law 27-88 to account for enforcement activities within the purview of the Office of Commissioner of Banking and Insurance, and the Banking and Insurance Board..

Board of Accountancy Fund - This fund was created for the purpose of regulating aspects of the practice of public accountancy. The Guam Code Annotated Title 22, Subsection 35104(d) states, "all monies collected by the Board ... shall be deposited with the Treasurer of Guam to the credit of the Board." Sources of revenues are from the issuance of certificates and permit fees collected from public accountants and firms practicing public accountancy. Monies shall be expended for administering the Public Accountancy Act of 1990.

CAHA, OET and CEF Fund - This fund was created by Public Law 22-060 to provide travel assistance to eligible organizations, schools and individuals participating in performing arts and humanities competitions.

Carrier Off-Duty Services Revolving Fund - This fund was created by Public Law 25-138. Charges from this fund are from services performed by Customs and Quarantine Officers, in the performance of their duties on any day of the week upon special request by the Director of Customs and Quarantine outside of normal working hours.

Nonmajor Governmental Funds - Special Revenue Funds, Continued September 30, 2005

Chamorro Commercial Loan Fund - Established in 1993 by Public Law 21-148, the Chamorro Commercial Loan Fund is created through the authority of the Chamorro Land Trust Commission. Loans are to be made available to Chamorro Land Trust lessees or by organizations formed and controlled by lessees for the development of theaters, garages, service stations, markets, stores and other mercantile establishments.

Chamorro Education Assistance Fund - This fund was created within the Chamorro Land Trust Commission to account for funds transferred from the Chamorro Home Loan Fund to be expended on educational projects, after consultation with the University of Guam and the Commission, which shall be directed primarily for the educational improvement of the children of lessees.

Chamorro Home Development Fund - This fund was created within the Chamorro Land Trust Commission to account for funds transferred from the Chamorro Home Loan Fund to be made available, with the prior written approval of the Governor, for construction of sanitary sewage facilities, construction of roads through and over Chamorro homelands, and for other nonrevenue producing improvements.

Chamorro Home Loan Fund - This fund was created within the Chamorro Land Trust Commission to account for funds transferred from the General Fund to be made available to extend loan benefits to native Chamorros.

Revenue provided under this fund is appropriated under Public Law 20-196 to the University of Guam as an additional source of funding to prevent any proposed tuition increase.

Village Streets Fund - This fund was created by Public Law 23-128. This Fund shall be used exclusively for the purpose of payment to vendors for village road planning, design, construction, reconstruction, improvement, repair and maintenance services, the acquisition of rights of way, or to service debt payments of revenue bonds which may be issued to fund the construction, repair and maintenance of secondary and tertiary roads.

Vocational Rehabilitation Revolving Fund – This fund was created by Executive Order 87-11 (E.O. 87-11) to be administered by the Department of Vocational Rehabilitation to pay the wages of Guam's severely disabled workers and other expenses necessary for their employment, such as workmen's compensation insurance. Revenues come from monies received from the sale of goods produced or service performed by severely disabled workers.

Water Protection Fund - This fund was created by Public Law 22-47 to provide funding for the administration and implementation and enforcement of the Water Pollution Control Act and regulations promulgated from said Act, for educational programs and grants for research and development, advertisement promotions, and inspections of facilities to prevent or minimize erosion that contributes to pollution of the waters.

Water Research and Development Fund – This fund was created by Public Law 22-47 to conduct water resource research which will contribute to the effective planning and management of Guam's underground and surface water, and to the development of programs which promote the best use of these resources.

Wildlife Conservation Fund - This fund was created to preserve, manage, enhance and protect the Government's wildlife resources and their environment. Revenues are derived principally from the sale of hunting, fishing and harvesting licenses, fees and permits.

Workmen's Compensation Fund - This fund was authorized to be created by Public Law 1-88. Section 37042 of the Government Code of Guam requires a fund sufficient to secure compensation payments under Title XXXIII of the Government Code in respect to employees of GovGuam, its agencies and instrumentalities, including any public corporation. Funds are disbursed upon the order of the Workers Compensation Commission, of which the Director of Labor is the Commissioner.

Youth Tobacco Education and Prevention Fund – This fund was created by Public Law 25-187 to account for 10% of proceeds from the sale and securitization of the allocation under the Master Settlement Agreement to be utilized by the Department of Mental Health and Substance Abuse, for youth compliance monitoring and tobacco and drug prevention and education programs.

Nonmajor Component Units September 30, 2005

Component units are legally separate organizations for which the elected officials of GovGuam are financially accountable. Nonmajor component units are defined as those component units whose activities are not significant or material to that of the primary government or to all component units as a whole. Proprietary funds are used to account for a government's ongoing organizations and activities that are similar to those often found in the private sector. All assets, liabilities, equities, revenues, expenses, and transfers relating to the government's business and quasi - business activities - where net income and capital maintenance are measured - are accounted for through proprietary funds. The generally accepted accounting principles here are generally those applicable to similar businesses in the private sector: the measurement focus is on determination of the change in net assets, financial position and cash flows. A brief discussion of GovGuam's nonmajor component units as of September 30, 2005, follows:

Guam Community College (GCC) - GCC was created by the enactment of Public Law 14-77, "The Community College Act of 1977," which became effective on November 11, 1977. Administration and operation of GCC is under the control of a nine-member Board of Trustees appointed by the Governor of Guam with the advice and consent of the Guam Legislature. Two of the nine members have no voting and participation rights as they represent the faculty and staff union.

Guam Housing and Urban Renewal Authority (GHURA) - GHURA was created by Government Code, Vol. II, Title XIV, Chapter X, 13902. GHURA's purpose is to promote the health, safety and welfare of the people of Guam by eliminating slum and blight conditions, by the orderly redevelopment and renewal of communities, by proper planning of community development and by provision of safe, decent and sanitary dwellings for low-income families, through all available Federal and local governmental programs. The Board of Commissioners of GHURA are appointed by the Governor of Guam with the advice and consent of the Guam Legislature. Revenues are derived from Federal financial assistance and rentals or charges for dwelling accommodations.

Guam Housing Corporation (GHC) - GHC was organized under the authority of Public Law 8-80 to promote the general welfare of GovGuam by encouraging investment in and development of low-cost housing. GHC provides for its operating needs by charging points on its low cost loans. Interest rates are determined by its Board of Directors.

Guam Economic Development and Commerce Authority (GEDCA) - GEDCA was created to assist in the implementation of an integrated program for the economic development of Guam. Enabling legislation set forth several specific purposes for the establishment of GEDCA to include:

- a) Aiding private enterprise without competing with it;
- b) Expansion of the money supply to finance housing facilities; and
- c) Providing the means necessary for acquisition of hospital facilities.

To accomplish the stated purposes, GEDCA is authorized to conduct research, invest in, provide loans, operate and provide technical assistance to industries and/or agricultural projects; issue revenue bonds; obtain GovGuam land; purchase mortgages; and recommend to the Governor of Guam businesses qualifying for tax rebates and abatements. GEDCA utilizes various Trust Funds to accomplish its stated purposes.

Nonmajor Component Units, Continued
September 30, 2005

Guam Visitors Bureau (GVB) - GVB is a public corporation created for the purpose of promoting the visitor industry in Guam. Funding is provided from transfers of appropriations from the Tourist Attraction Fund and interest income.

Guam Educational Telecommunications Corporation (GETC) - GETC, also known as KGTF-TV, was created as a public corporation by Public Law 12-194, as approved on January 2, 1975. The law sets forth the purpose of the Corporation to present educational television to the people of Guam and involve the people of Guam in its activities to the maximum extent possible. Funding is primarily derived from appropriations from the General Fund, community service grants and contributions from the public.

Chamorro Land Trust Commission (CLTC) - CLTC was organized under the authority of Public Law 12-226 to protect and ensure trust lands are efficiently and effectively awarded to native Chamorros through residential, agricultural, and commercial leases. CLTC's objectives are to act in the interest of beneficiaries, maintain and uphold fiduciary responsibilities for the beneficiaries, and to exercise due diligence in the management of Chamorro homelands. CLTC currently has a trust land inventory of 12,731 acres or 51,520,529 square meters.

Fiduciary Funds
September 30, 2005

Fiduciary funds are used to account for assets held by GovGuam in a fiduciary capacity. A brief description of each fund follows.

Pension Trust Fund

Government of Guam Retirement Fund - Public Law 1-88 and Public Law 9-251 (Section 4201 of the Government Code of Guam) created the Retirement Fund to provide retirement annuities and other benefits to employees of the Government who became aged or incapacitated or to dependents or survivors of these employees. The Retirement Fund is administered by a Board of Trustees who bear responsibility for the direction and operation of the affairs and business of the retirement system.

Private Purpose Trust Funds

Superior Court Trust Funds - The Superior Court is responsible for maintaining five trust funds which were primarily created through judicial decree. These Trusts are:

- Land Condemnation Fund - an escrow account for governmental land acquisitions.
- Guardianship Fund - to account for the financial affairs of individuals for whom the Court has been petitioned to act as a guardian.
- Trust Fund - to account for judgments compelling individuals to award payments arising from various civil and criminal cases.
- Traffic Court - to account for deposits made by accused traffic offenders who are contesting charges against them.
- Jury Fund - to account for funds awarded and to be awarded to citizens who serve on juries. Funding is derived from local appropriations.

Supreme Court Trust Fund - This fund was created to hold the assets in conjunction with an embezzlement judgment brought against a local attorney and to pay valid claims in accordance with any rulings.

Agency Fund

Agency funds are normally used to account for assets held by a government as an agent for individuals, private organizations or other governments and/or other funds. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurement of results of operations.
